Total Performance Bass Boats

In 1970 Jan and I had a dream. That was to build the very best bass boat on the market. At that time I was a plastics engineer for a major pharmaceutical firm. Jan ran a drive in restaurant we owned and we piddled in many other projects searching for our future. Just entering our 30's we set out to build our dream. Now some years later we have grasped it.

Bass Cat has long been recognized as the most innovative bass boat company of today. We have hit this mark consistently and continue to exhibit this trait. Our models have introduced many changes which our competition has copied. Our trends are not fads, they are functional ideas for tournament fishing. Whether it be the BP Computer Dash, 19' boat hulls, recessed foot pedals, rod organizers or one of many other innovations. We have exemplified an idea oriented company. One which takes great pride in our products and our customers.

Now we continue to move on as we introduce a new product line, an aluminum boat with a neat little fiberglass console. It is a new wave of fisher people, whom we plan to see at our "Owners Invitational" this spring. Imagine 800 boats with their stern lights glowing in the darkness awaiting take-off. Now they will be joined by these silver sided glories which bring a new participant to our midst.

The *Pantera III* is our most prized project in 1998. Just recently completed, this new model brings the styling of the Jaguar with the tenacity of the Eyra. This is a looker and it will entice those of you with Pantera II's. No, we won't be stopping there! We will be constantly working to bring newer, more functional models to the market. They will be innovative, creative and represent our ideas.

All of this from a little boat company in the hills of Arkansas. Our roots are here in these mountains overlooking lakes Bull Shoals, Norfolk and the White River. We enjoy fishing, families and activities in this small town environment. Our thoughts are entrenched as fisher persons. One of our main goals is to continue to build the best, most innovative product on the market. As you view this brochure, see the thoughts we put in every product and the effort for which each is built. As a consumer we want you to feel as if you are a part of our family. One from a small town with good values and striving to improve the future for the future of our children.

Enjoy our dreams as we become a part of yours.

Good Fishin',

Ron & Jan Pierce

Owners Invitational

Every year we look forward to our "Family Reunion"... The Bass Cat Invitational on Lake Norfork. We call this a family reunion because it's one time each year that all Bass Cat owners (our family) are invited to Mountain Home, Arkansas for some good ole Ozark hospitality. Our only goal is to show our sincere appreciation to our family of Bass Cat Boat registered owners.

The two day (Friday & Saturday) Invitational begins with registration on Thursday evening. Friday morning is truly a sight to behold, as the sun peeks over the mountains, your heart starts pounding a little faster as the daylight reveals a bay with little lights dancing all around on the water. It's not often that you see such a spectacle as 700-800 Bass Cat Boats staged for a tournament takeoff. It is an overwhelming sight to behold.

The Bass Cat Invitational is a family affair. We provide an atmosphere for family participation with Rubber Duck Hunts, Kids' Contests, and even an event for the wives who aren't fishing.

Saturday morning brings the final day of competition and some serious thinking, and wondering if any of those fish stories heard the night before had any truth to them. The afternoon's final day weigh-in provides a little computer printout that makes several folks really appreciate this "Family Reunion". Following the final weigh-in contestants get a little time to relax, and swap a few fish stories before getting ready for the evening festivities. The festivities include... a real honest to goodness Ozarks Barbecue and an evening of fun with friends...totally alcohol free. After everyone is "stuffed," we provide a few drawings for prizes. The final drawing has included a new Bass Cat boat and trailer...not many leave early! We promise you one thing, on the way home you will look forward to the next "Family Reunion".

Quality Craftsmanship

Hand Craftsmanship utilizing only the highest quality materials available is a family tradition at Bass Cat which is uncompromising. Each step in the manufacturing process is completed by individuals who demand attention to detail in every phase of the boat building process. Customer satisfaction, while continually striving for perfection in our products is the basis of our success, of which we are very proud. Hopefully you look for it in every facet of the Bass Cat Boat. As you look at this "Family Album" of photos taken throughout the Bass Cat factory, keep in mind that our boats, trailers, seating, wiring harnesses and even the embroidery on the Bass Cat seats are all made from raw materials at Bass Cat, not made for Bass Cat.

When we put the Bass Cat name on our boat, we know every facet of the final product meets our uncompromising Quality Craftsmanship standards... not someone else's.

Introducing a New line of high quality aluminum Bass Cat Boats. Not only economical, but offering great performance, and handling, with a solid ride.

Fishermen will appreciate the plush Tempres seats and 20 oz. carpeting, just like those found in our "top of the line" fiberglass boats. Under the carpeting you will find solid marine plywood and aluminum flooring and side panels. "Solid" because no other manufacturer devotes as much lateral bracing support. The hull is made from .100 gauge aluminum and is "all welded". A major advantage in our construction is the center line ice rail extrusion on the bottom of the hull. It protects the hull from any obstructions, plus contributes to added stability in high winds, and other rough water conditions.

Fishermen will appreciate the thought that went into the layout design of these boats. A rod locker and great storage towards the

front, while a partner on the rear deck also has storage running the width of the boat under the seats. A large 31" aerated livewell is also at the rear, as is access to the built-in fuel tank, batteries, and easy maintenance cartridge style bilge and aerator pumps.

As you can see by reviewing the standard features, this is not a stripped down boat...but one with many features usually found only in "big boats". We feel that even though you don't require, or desire a "big" boat, you still expect and deserve this same "Bass Cat" quality and workmanship as found in our top of the line fiberglass boats.

Sabre

We recommend you always wear a U.S. Coast Guard Approved Life Jacket anytime your outboard is

The Caracal and Sabre are considered the "Hot Rods" of the Bass Cat line. So, all you fishermen with a few boyhood actions surfacing every now and then, these are the boats for you! Their quick throttle response will keep you in the fast lane right from the instant "hole shot."

If you're not concerned about "hot rodding", these boats will still impress you. They handle like a dream... you know you are always in control, and they take turns smoothly, without hopping or skidding.

Tournament fishermen will certainly appreciate the performance, and handling of these boats as well as great fishing decks both front and rear. Fishermen

will also be impressed with the list of standard features, from digital gauges, dual steering, hydraulic lid openers, CMC Jackplate, and dual aerated livewells to name a few. When you are comparing the Caracal and Sabre to other 17' and 18' boats the impressive list of standard features and uncompromising Bass Cat quality throughout will prove these boats to be one of the best "values" on the market.

A generous offering of options are also available on these boats including a Flip-pin' Deck which allows for added storage beneath the deck.

*Available in motor combo format for added value.

Standard Features:

 Beam 92"
 Approx. Wt. 1350 lb.
 Fuel Capacity 36 gal.
 Max. H.P. Range 150-175 H.P.

The Eyras represents a new era in eighteen foot bass boats designed specifically for the serious tournament angler. A new front deck positions the angler 10-12" closer to the action with wider deck room. A patented recessed trolling motor foot control platform offers less leg and back stress. This recessed area, also, is home for bow mounted graphs; they're out of the way, yet highly visible.

A new console offers even the largest of men leg room and roomy comfort. A tilt wheel, seats with high backs and

"wrap around" support all help provide additional body control and comfort during rough water or long run situations. Behind the seats you will find a redesigned extra wide beam with 2000 era styling which provides added room and good looks to the back of the boat. If you fish tournaments with H.P. limitations take a demo ride in this new Eyras...this is the bass boat you've always wanted. The Eyras screams with a 150, and has a layout with features you've never dreamed of.

Boat Color Shown: B6567

Boat Color Shown: AB100

Classic

We recommend you always wear a U.S. Coast Guard Approved Life Jacket anytime your outboard is running...with an emergency safety switch attached.

The Panthera Classic features the same 19' hull design as the Bass Cat Panthera II. The front deck features our patented recessed trolling motor mount. This recessed mount not only puts fishermen closer to the front of the boat but helps relieve back and foot stress during the days fishing. A Panthera's hull design provides the ultimate in "big boat" performance and handling in all types of water conditions, giving you a safe and dry ride. A new console includes an in-dash Zercor RTS, BP400, plus a graphics dash with VDO Tach/Speed/Fuel gauges. Dual full length rod boxes and front deck storage areas to hold all the rods and tackle needed for a serious day of fishing for you,

and your partner. Additional storage is found under the seats, with an ice chest located between the driver and passenger seats. Behind the seats you will find dual aerated, timed livewells and a rear deck big enough for your partner to move around with ease.

A Classic dual console (DC) is available for those who use their boat for both skiing and fishing, or just prefer the appearance of dual console boats.

The Classic's hull design and overall quality, hand craftsmanship provide the best overall performance of any bass boat on the market...bar none.

*Available in motor combo format for added value.

From the eight stringer hull to the BP101 LCD Digital Dash, the Panthera II is pure perfection in quality, craftsmanship, and boating innovations which puts new meaning in our tag line...Total Performance Bass Boats. A patented recessed trolling motor pedal basin at the bow places fishermen 10-12" closer to the action, providing additional deck space for a buddy to fish without feeling cramped. Fishermen have found less back, knee and ankle stress with this recessed mount. This deck modification also allows a move of the console to a more forward position allowing even the largest of anglers ample room and comfort behind the Momo tilt steering wheel. Better comfort is also found in the bench seats, higher backs and wrap around support provide more comfort during those long early morning runs.

The deep hull on the Panthera II provides an even smoother, no porpoise, rough water ride than the old hull for which the Panthera has been so noted for throughout the industry. This deeper hull design allows for reduced backwash on shut down.

The Panthera II DC is available with dual consoles for those who prefer the looks and added protection from the elements that they offer their passengers. The passenger console has a large glove box for added storage.

Compare the standard features, performance, handling, rough water ride, quality craftsmanship, customer satisfaction, and reputation of the Bass Cat Panthera II to any bass boat on the market. You will see, regardless of which Panthera II you might choose, one thing for sure ...you can't make a bad choice.

The patented recessed trolling motor foot control basin is shown at the left. It helps relieve back and leg stress during a days fishing.

Pantera III

The Evolution of a Legend...

Take a close look...innovative hull and deck designs abound on the all NEW Pantera III. The Pantera for which we have built a wonderful reputation has many new innovations... the styling of the Jaguar and the tenacity of the Eyr.

From the deeper eight stringer hull to the BPIOI LCD Digital Dash, the Pantera III is pure perfection in quality, craftsmanship, and boating innovations which puts new meaning in our tag line...Total Performance Bass Boats. The Pierce family tradition of continued innovation and years of planning and discussions with professional fishermen have produced the Pantera III.

Our patented recessed trolling motor pedal basin at the bow helps reduce back, knee and ankle stress while placing fishermen 10-12" closer to the action. This deck modification also allows for an additional rod box, larger storage areas, and a console design which allows even the largest of anglers ample room and comfort behind the Momo tilt steering wheel. Better comfort is also found in the bench seats, higher backs for additional support. Between the seats you will find a convenient additional ice chest. Passengers

will find a convenient, secure rod storage shelf beside the bench seat. The roomier rear section of the deck has smooth radiused corners which are more aerodynamic and allow motor control cabling to exit at the center of the splashwell and enter the engine with less binding and kinking as they link the console control to the engine.

The deeper hull design on the Pantera III provides an even smoother, rough water ride than the Pantera has been so noted for throughout the industry. This deeper hull design also allows for reduced backwash on shut down.

A Pantera III DC is available with dual consoles for those who prefer the looks and added protection from the elements they offer their passengers. The passengers console has a large glove box for added storage.

Compare the standard features, performance, handling, rough water ride, quality craftsmanship, customer satisfaction, and our companies reputation to any bass boat on the market...bar none. You will see, regardless of which Pantera you might choose, one thing for sure ... you can't make a bad choice.

Jaguar

We recommend you always wear a U.S. Coast Guard Approved Life Jacket anytime your outboard is running...with an emergency safety switch attached.

The Jaguar Bass Boat from Bass Cat Boats can be described with one wordAWESOME! This 20'3" hull glides over and thru the water with ease. It's stable, yet agile even in rough water, and a dream to drive. Performance is a word which has always been associated with Bass Cat Boats, the 20' Jaguar is no exception. Passengers will swear they are out for a Sunday drive, even as their cheeks and eyelids are pulled back as they sense its smooth acceleration to a blistering "top end".

Tournament fishermen and their partners will never get in one another's way, nor stumble over equipment getting to the net. A master rod box and a separate partners rod box in the rear deck keeps all rods and reels organized and out of the way. Front and rear deck storage compartments provide all the additional tackle and accessory storage any fisherman could ever need or want.

At the bow, fishermen will find Bass Cat's patented recessed basin which holds the trolling motor foot control. It's flush with the deck, out of the way, puts fishermen 10-12" closer to the action, plus it helps relieve back and foot strain associated with a days fishing. This

recessed area also provides space for a digital graph.

Three front storage compartments plus an ice box keep everything close at hand and offer plenty of floor space for two "flipping" close cover.

At the console you will marvel at the amount of information displayed with a simple touch on the new digital BPIOI "Super Dash". Location, distance and time traveled, barometric pressure, surface temp, and livewell temp to help monitor the days catch and ensure a safe, healthy release. The Super Dash also helps keep an accurate "pulse" on the engine while helping to gain its ultimate performance at all levels of operation. This is only a partial listing of features...seeing is believing.

A dual console (DC) model is also available for those who prefer the looks and passenger convenience offered by a two console boat.

The Pierce family tradition of demanding only the highest quality craftsmanship, performance, and state of the art design in each Bass Cat Boat is found in all 20'3" of this new Jaguar.

This Jaguar is simply the "ultimate" bass boat.

Boat Color Shown: D1101

Standard Features:

BP 101 Super Dash • Built-In Triple Battery Charger • Lighted Storage Boxes • CMC 6 Bolt Jackplate • Hydraulic Steering with Tilt Steering Wheel • Zercum Classic In-Dash • Dual Bilge Pumps (Auto or Man.) • Dual Aerated Livewells with Timer • Livewell Flush Valves • Graphics Dash Panel • Deluxe Tilt Steering Wheel • Bubble Trim • Metal Flake Cap • Trim Stripe on Hull • Console Storage Tray with Lighter and Light • Four Interior Courtesy Lights • Two 12v Accessory Outlets • Livewell Control Valve • Circuit Breakers • Carpet Floor Edging • Three Seat Positions • Battery Check Gauge • Bow Navigation Light Switch • Carling Switches • Removable Rear Lids • Front Accessory Switch • Dual Rear Livewells • Rear Circuit Block • Stainless Steel Handrails • Lockable Storage Boxes • Hydraulic Lid Openers • Metal Flake Insert • Running Lights • Tackle Box Shelf • Master Power Switch • Indicator Lights • Horn • Four Cleats (Flush Mount) • Two Tempress Fold Down Seats • Two 13" Extensions • 12/24/36 Bow Panel Plug with 6 Gauge Wire • Front Power Trim Buttons • Passenger Handrails • Two Rod Straps • Rope Bump Molding • 52 Gallon Fuel Capacity (Dual Tanks) • PVC Enclosed Wiring Harness • Color Coded Wiring • Mercury Switches • Recessed Trolling Motor Basin at Bow • Large Front Rod Box with Organizer • Rear Rod Box (Passenger) 6'10" • Two Ice Boxes • Passenger Storage Box • Three Drink Holders • Passenger Foot Rest • Storage Under Bench Seat • Three Storage Areas at Bow • Gill Battery Boxes • Tackle Storage on Back Deck

Trailers

Boat Color Shown: D1101

Most people take the trailer sitting under that shiny new Bass Cat Boat for granted...but we take our trailers very seriously. Unlike most manufacturers, Bass Cat builds Bass Cat Trailers...one at a time, to fit the specific hull design of each model boat. Every member and cross support is jigged, fitted and welded to exact tolerances...there is zero adjustment on a Bass Cat Trailer. Axles are also

jigged, and welded in a pattern weld to assure minimal tire wear from caster to camber. Finally, each trailer is painted and carpeted to coordinate with the boat for which it was built.

At Bass Cat, your safety and the investment you have made in your boat are not taken for granted...we demand quality craftsmanship, it's a family tradition.

Standard Features:

3000 lb. Axle • Waterproof Bearings • 14" Aluminum Mod Wheels with Goodyear Marathon Blackwall Tires • 4" Steel Channel Construction • 1200 lb. Winch • Side Mount Jack • Recessed Spare Tire Mount • Spare Tire • Fiberglass Color Co-ordinated Fenders & Carpeting • Recessed Waterproof Lights • Polyurethane Enamel Finish • Surge Brakes (Std. on the Jaguar, Panthera III, Panthera II, Classic, Eyra, and Sabre Trailers)

Warranty

Limited Five Year

Bass Cat Boats warrants to the original purchaser, each new boat or trailer used for noncommercial uses, to be free from defects in workmanship and material for a period of two (2) years under normal conditions of recommended use, with a five (5) year hull warranty under the same conditions.

To validate this warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days after original purchase. All boat manufacturers are required by Federal law to notify first purchasers in the event any defect is discovered "which creates a substantial risk of personal injury to the public", or any noncompliance by manufacturer. The failure of any purchaser to fill out and return the warranty registration card may make it impossible for Bass Cat Boats to give direct notice to such purchaser.

During this two-year period, any authorized warranty repairs will be made free of charge by Bass Cat Boats at their manufacturing plant in Mountain Home, Arkansas, or at their option, by an authorized Bass Cat Boats boat dealer at the dealer's store or service center. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final.

This warranty does not apply to (1) any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, or discoloring; (3) windshield breakage; (4) any boat which has been subject to misuse, negligence or accident, or used for racing or commercial purposes or operated contrary to any printed instructions furnished by Bass Cat Boats; (5) upholstery damage; (6) any boat utilizing over a 6" Jack Plate or changing of standard equipped models Jack Plate to other than standard; (7) accessories, steering systems, pumps, lights, and other equipment not manufactured by Bass Cat Boats (these are covered by warranties (if any) of the respective manufacturers supplying these items and are not covered under this limited warranty); (8) any boat which has been overpowered according to the maximum recommended engine horsepower specified on the capacity plate affixed to the boat.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats, and Bass Cat Boats expressly denies on the part of any person to incur or assume for it any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat Boats. Bass Cat Boats will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in the colors, equipment, specifications, materials, hulls, prices, and to discontinue models. When changes are made, we reserve the right to do so without incurring the obligations to equip or modify existing models built prior to the date of such changes.

Bass Cat Boats makes every effort to ensure that the brochure information herein is correct and accurate at the time of production. Continual product refinement and design changes may result in revisions to current products that may not be shown in this brochure. We reserve the right to make changes in models, specifications, colors, and features at any time. Please see your authorized Bass Cat Dealer for additional information, options and specific warranty information.
