Bass Cat

We Build Dreams! *Let Us Build One For You!*

Back in the 1950's it was a vision of Ron Pierce to build boats. Ron's first hand built boat was stored on the front porch of his parents home and run with his grandfathers outboard, usually without Grandad Elgin knowing it. That old wooden boat was simply the start of many memories which would unfold over time.

It opened the door to a new world. A world of skiing and eventually bass fishing as life evolved and changed with family. From that old wooden boat others would follow as the Pierce family stayed active in the outdoors.

Their life together began as most, eventually Ron achieved a successful career in the plastics industry. Though things were changing and he and Jan looked for something different. In Mountain Home they purchased a small drive inn restaurant. There cookin' chickens on a Sunday afternoon ran into the case lots. That was a time consuming business and they looked to get into the outdoors more.

In 1971, Ron and Jan started Bass Cat in their two car garage. From there it moved to a small military style quansit hut ... which was fast outgrown. Finally, moving to the present location in 1972 where the factory stands today after several additions and alterations with the last made in 1999.

Over the years things sure have changed in the marine business. Those first Bass Cat boats could be purchased for less than \$1,000.00. The entire package wouldn't run more than \$2,500.00. Though the boats certainly have changed. We had an innovative wider bottom than many boats of that time. A 16' boat was considered larger than one would ever need. The beam was a mere 61".

That innovative little cigar boat had turning strakes still used today on some very popular brands. It has been a position of Bass Cat, always innovating, always changing. Almost as if it were the testing grounds and farm club of anglers and their boating products. No doubt we have seen many things come and go over the years. Still though we remain and we continue to be the testing grounds of new ideas and developing new technologies which eventually make their way to our competition. Eventually our innovations like recessed trolling pedals and elevated electronics found

their way into other boats. Just like the battery chargers and interior box lighting.

Not just in accessories either, also in design and production techniques. Sure others have claims of their innovations, though we built the first all fiberglass hull in 1998. As for production techniques we never were able to grasp the mid 70's concept of simply screwing a boat together. There was just something wrong in having to tighten screws that held the boat together after a long day on the water. So we always built bass boats as one unit. A concept amazingly now adopted by many.

And how about design, not only in 1971 we took Vee hulls a new direction in 1977. In 1984 we introduced the design which patterned the first of today's 19', 200 HP rated wide beam (92") bass boats. Those Pantera Pro models were revolutionary! Then in 1988 it was the Pantera II and Sabre ... the first of today's true tournament machines. The competition on those Pantera II's, and Sabres is still unmatched by most ... and now with the new Pantera IV (P4) ... the tradition continues.

No doubt in the future some other company will announce their new exclusive, or innovative new idea of a wider beam, recess pedal area, fiberglass floor, transom, battery charger, or other features which we introduced first to bass fishing. Though that's OK, we are perfectly happy to remain the "farm club" of ideas and innovations for years to come.

We just hope you and your family take time to look at our "farm club." We want to continue to live a dream started in the 50's and pass it on through many generations to come. Building your dreams while living ours. What better life would one possibly want.

We thank you for this opportunity,

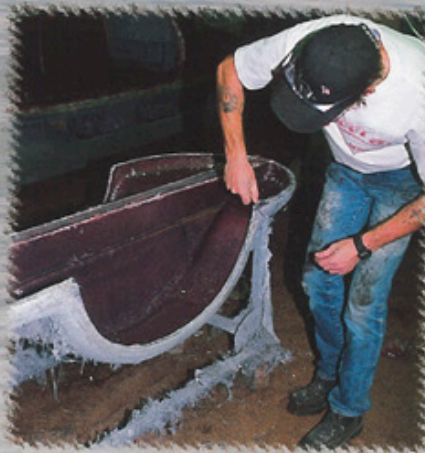

Good fishin,

Ron & Rick Pierce

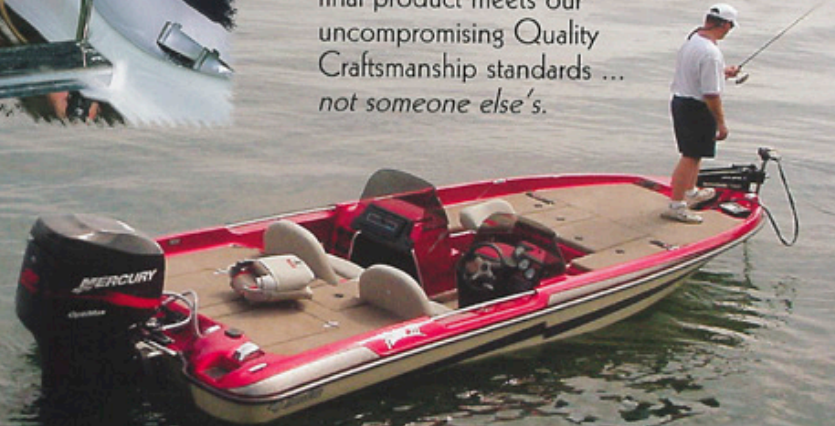

We Build Dreams ... Every Facet of a Bass Cat is Built to Our Uncompromising Quality Standards ... Not Someone Else's!

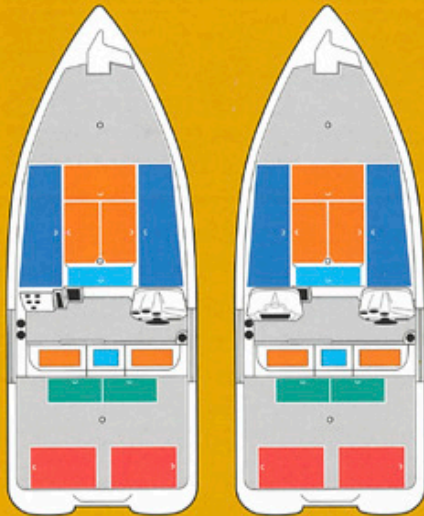

Hand craftsmanship ... utilizing only the highest quality materials available is a family tradition at Bass Cat Boats which is not compromised. Each step in the manufacturing process is completed by individuals who demand quality ... with attention to the smallest detail in every phase of the boat building process. Customer satisfaction, while continually striving for perfection in our products is the basis of our success, of which we are very proud. Hopefully you look for it in every facet of the Bass Cat Boat. As you look at this "Family Album" of photos taken throughout the Bass Cat factory, keep in mind that our boats, trailers, wiring harnesses, are all made from raw materials at Bass Cat, *not made for Bass Cat.*

When we put the Bass Cat name on our boat, we know that every facet of the final product meets our uncompromising Quality Craftsmanship standards ... *not someone else's.*

Cougar FTD

- Dry Storage
- Batteries & Gas Tanks
- Live Wells
- Rod Box
- Ice Chest

Boat Color Shown # M1B40

Specifications:

Length	20'4"
Min. Storage Length	24'10"
With Swing Away Tongue	22'2"
(Add 4" for Yamaha Outboards)	
Beam	94"
Approx. Wt.	1590 lb.
Approx. Wt. (DC).....	1605 lb.
Fuel Capacity	44 Gal.
Max. H.P. Range	175-285

The Cougar FTD (Full Team Deck) is the new "bad boy" in the Bass Cat line up! It's all fiberglass hull utilizes our trademark vacuum compression manufacturing techniques. The 20'3" hull is rock solid providing a high performance hull which is very stable, yet agile even in rough water.

A new deck layout provides storage from the bow to the console within six (6) compartments ... two are under one lid in the front center. Just short of the storage in an aircraft carrier. Vast additional storage is also found under the new euro style bucket seats with an ice chest located in the center of the seat

arrangement. The new seats provide support in all the right spots and the bolsters cradle you in glove like comfort.

A compliment of standard features are found in this fishing machine. The aerodynamic dash is designed to protect an optional built-in digital graph/GPS.

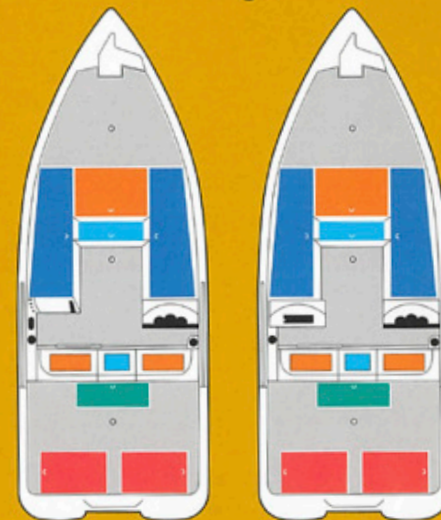

No plastic dashes, or fancy cover ups ... just an all out fishing machine from tip to stern.

All Bass Cat Boats are made with All Fiberglass hull construction techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty.

Boat Color Shown # M2016

Cougar

■ Dry Storage ■ Batteries & Gas Tanks ■ Live Wells
■ Rod Box ■ Ice Chest

Specifications:

Length	20'4"
Min. Storage Length	24'10"
With Swing Away Tongue	22'2"
<small>(Add 4" for Yamaha Outboards)</small>	
Beam	94"
Approx. Wt.	1395 lb.
Approx. Wt. (DC)	1455 lb.
Fuel Capacity	36 Gal.
Max. H.P. Range	175-285

Stable handling, rock solid fishing platforms, plus agile as it corners like on a slot track even in rough water.

Cougars are positioned in the line at the top of the mid range Bass Cats. Easier on your billfold while still offering you our "top of the line" Bass Cat "all fiberglass" hull construction throughout. The new vacuum compression manufacturing technique provides your hull a *Transferable Lifetime Structural Warranty!* That is assurance to you and future buyers that they are in fact ... that good.

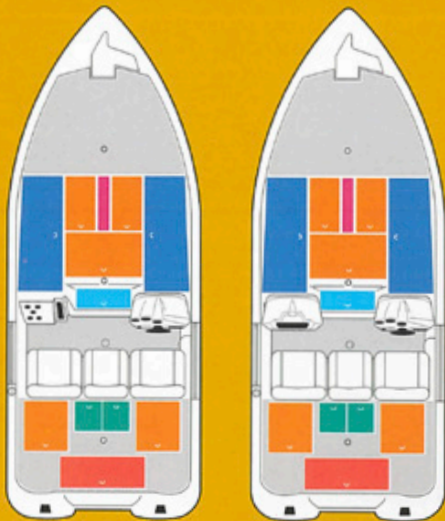

At the bow, fishermen will appreciate Bass Cat's patented

recessed basin which holds the trolling motor foot control. It's flush with the deck, out of the way, and puts fishermen 10-12" closer to the action. It also helps relieve back and foot strain associated with a day's fishing. Additionally, the recessed basin provides space for a digital graph.

Up front, two full length rod boxes provide more than enough storage for your rods and reels. All based on our traditional floor plans which offer more room for the family, as not every one needs a full deck boat. It even has two ice chests to accommodate those hot days in the sun.

Pantera IV

- Dry Storage
- Rod Box
- Live Wells
- Ice Chest
- Batteries & Pumps
- Net Storage

Boat Color Shown # N0851

Specifications:

Length	19'5"
Min. Storage Length	24'1"
With Swing Away Tongue	21'5"
(Add 4" for Yamaha Outboards)	
Beam	94.5"
Approx. Wt.	1425 lb.
Approx. Wt. (DC).....	1440 lb.
Fuel Capacity	36 Gal.
Max. H.P. Range	135-200

WOW ... it's like someone listened to the desires of every serious tournament fisherman, sat down with a piece of clay and molded the perfect 19' bass boat. This Pantera not only maintains the *first 19' bass boat tradition* introduced from the mid 80's ... it may have reached an apex ... with a ride like a luxury car. No smoke and mirrors here, this is the real deal.

From the newly designed all fiberglass hull this P4 is pure perfection in quality, craftsmanship, and boating innovations. A new hull was required in maintaining performance with new storage demands. It worked. The front deck maintains *another first* our patented *recessed trolling motor pedal basin* at the bow ... behind the pedal is nothing but storage all the way back to the consoles. Up front *another first* for bass boats ... *recessed net storage* at your fingertips! Surrounding the net are six (6) storage areas on the front deck alone including 2 full length rod boxes, and a "step-up" ice chest.

The new console design from the FTD has found its way into the design of the P4, bringing with it *another first* in the 19' industry is the availability of a *built-in LCR* on the face of the console.

A Momo tilt steering wheel, superior comfort is found in the euro bucket seats, higher backs, and rolled bolsters offer additional support.

The roomier rear section of the deck finds compartments spacious and deep so your partner can stuff all of his day's needs in his "office."

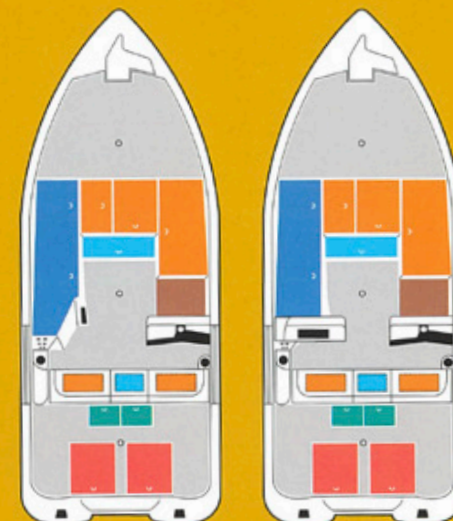

A Pantera IV is available with dual consoles the passenger's console has a grab bar plus a large glove box for added storage.

Compare the standard features, performance, handling, rough water ride, quality craftsmanship, customer satisfaction, and Bass Cats reputation to any bass boat on the market ... bar none. All Bass Cat Boats are made with innovative construction techniques. *Another first* in our industry ... our structures carry a *Transferable Limited Lifetime Structural Warranty*.

Boat Color Shown # F1217

Pantera III

- Dry Storage
- Rod Box
- Tackle Box Tray
- Batteries & Gas Tanks
- Live Wells
- Ice Chest

Optional Flippin' Compartment

Specifications:

Length	19'4"
Min. Storage Length	23'11"
With Swing Away Tongue	21'3"
<small>(Add 4" for Yamaha Outboards)</small>	
Beam	94"
Approx. Wt.	1395 lb.
Approx. Wt. (DC)	1445 lb.
Fuel Capacity	44 Gal.
Max. H.P. Range	135-200

The Pantera III is pure perfection with its deeper water hull design. Our patented recessed trolling motor pedal basin at the bow helps reduce back, knee and ankle stress while placing fishermen 10-12" closer to the action. This deck modification also allows for additional storage, and a console design which allows even the largest of anglers *ample room and comfort* behind the Momo tilt steering wheel. Better comfort and support is also found in the new euro bench seats. Between the seats you will find a convenient additional ice chest. Passengers will find a convenient secure rod storage shelf beside the bench seat. The roomier rear section of the deck has smooth rounded corners which are more aerodynamic and allow motor

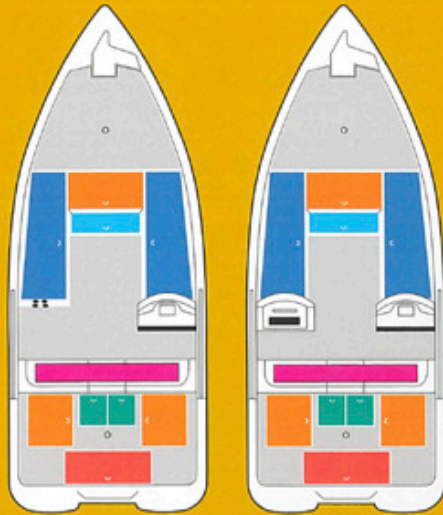

control cabling to exit at the center of the splashwell and enter the engine with less binding and kinking.

The deeper hull design on the Pantera III provides an even smoother, rough water ride than the earlier Pantera's.

A Pantera III DC is available with dual consoles for those who prefer the looks and added protection from the elements for their passengers. The passenger's console has a large glove box for added storage. You will see, regardless of which Pantera you might choose, one thing for sure ... you can't make a bad choice. All Bass Cat Boats are made with innovative construction techniques and carry a Transferable Limited Lifetime Warranty.

Pantera Classic

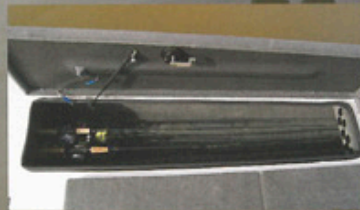

- Dry Storage
- Batteries & Pumps
- Ice Chest
- Rod Box
- Live Wells
- Fuel Tank

Boat Color Shown # Z9253

Specifications:

Length 19'1"
 Min. Storage Length 23'11"
 With Swing Away Tongue 21'3"
 (Add 4" for Yamaha Outboards)
 Beam 94"
 Approx. Wt. 1245 lb.
 Approx. Wt. (DC) 1295 lb.
 Fuel Capacity 36 Gal.
 Max. H.P. Range 115-200

Optional Rod Box Organizer

We listen to fishermen. This re-designed Pantera Classic hopefully will fit those anglers who find the 19' bass boat fits their desires by providing versatile performance and handling in all types of water conditions. The "all fiberglass" vacuum compressed hull, stringers, and transom offer a superior rough water ride and long term durability. A Lifetime Transferable Structural Warranty lets this Bass Cat Owner know he has a very high quality crafted product, backed by over 30 years of proven Customer Service from the founding Pierce Family!

Dual rod boxes, a mammoth front deck storage box, and two (2)

large storage boxes on the rear deck provide storage for both the owner and his partner. A center line trolling motor mount with recessed trolling motor pedal basin, plus a new modular console that allows for an optional built-in digital graph/GPS, aerated livewells, 36 gal. fuel tank, tilt steering, and aluminum lids are just a few of the standard features on this new Pantera Classic.

A dual console (DC) Classic is also available for those who want the added protection for a partner, or, just prefer the looks of dual consoles. *Classic Economy Series features differ.

Optional Hydraulic Steering Shown in this Splashwell Shot.

Boat Color Shown # U2228

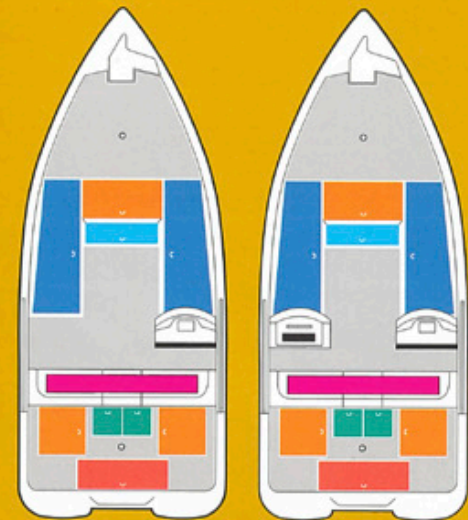

The 2004 Sabre features an extensive amount of storage, and dual rod boxes with a step up ice chest. Yes, we listen to the anglers, talking about pros and cons of bass boats. The Sabre is truly a fun bass boat to drive, a quick throttle response will keep you in the fast lane right from the instantaneous "hole shot." Plus, this Sabre handles like a dream ... you know you are always in control, taking a turn smoothly.

Tournament fishermen will appreciate the added front and rear deck space as well as the recessed trolling motor basin to help

relieve back, knee and ankle stress. Fishermen will be impressed with the list of standard features, from a new aerodynamic modular console which can hold an optional built-in digital graph/GPS, dual steering, hydraulic lid openers, and a dual aerated livewell with a divider to name a few. What makes the Sabre stand out from other 18' boats on the market is the uncompromising Bass Cat quality throughout. Everything is designed to fit ... eliminating cover ups, and plastic dashes that fade. Plus, its manufactured with the same All Fiberglass hull construction techniques as the most expensive Cougar FTD. Plus, it carries the same Transferable Limited Lifetime Structural Warranty ... a real "biggie."

Sabre

- Dry Storage
- Batteries & Pumps
- Ice Chest
- Rod Box
- Live Wells
- Fuel Tank

Specifications:

Length	18'1"
Min. Storage Length	22'
With Swing Away Tongue	19'6"
<small>(Add 4" for Yamaha Outboards)</small>	
Beam	92"
Approx. Wt.	1175 lb.
Approx. Wt. (DC)	1225 lb.
Fuel Capacity	36 Gal.
Max. H.P. Range	115-175

NOTE: Some Options are Shown Here are:
Jack Plate, Butt Seat, and Tilt Steering.

Phelix

Boat Color Shown # J0318

Specifications:

- Length 17'1"
- Beam 65"
- Approx. Wt. 525 lb.
- Max. H.P. 25

Bass Cat's Phelix is perfect for those anglers desiring a fiberglass boat which is very affordable. Great for small lakes or covering the saltwater "backcountry" in search of Redfish, and Snook. This "All Fiberglass" boat is made with our vacuum compression

manufacturing techniques just as our top of the line Bay Cat. Economical, Easy Maintenance, Quality Construction, and Lifetime Transferable Structural Warranty all add up to ... a lifetime of fun on the water.

Boat Color Shown # K0244

Bay Cat®

- Anchor Storage
- Dry Storage or Bait Well
- Rod Box
- Batteries
- Live Wells
- Ice Chest

Specifications:

Length	21'7"
Storage w/ Swing Away Tongue ...	23'8"
<small>(Add 4" for Yamaha Outboards)</small>	
Height with Pivot Bolster & Pivot Console on Trailer	6'4"
Beam	8'4"
Approx. Wt.	2100 lb.
Total Cap. (Persons/Mtr/Gear)	1445 lb.
Fuel Capacity (2 x 36)	72 Gal.
Max. H.P. Range	175-250
Draft w/ Moderate Load	15"

Rear Deck Seat in Stowed Position

Rear Deck Seat in Seating Position

The Bass Cat Bay Cat® is our biggest project to date ... both in size and complexity. More thought and development is found in the Bay Cat® than any other boat including our revolutionary Eyra which brought rounded rear decks and smoother profiles to bass boats in the early 90's.

This center console is designed to take on the tough demands of off shore fishing as well as great for stalking Reds, and Trout in the "backwater flats." The Bay Cat® will also be ideal for many freshwater applications. The recreational family will find no boat more versatile. Dad can bass fish, mom can sun on the back deck, and the kids can ride in comfort on the stowable rear bench seat.

Construction is our innovative "all fiberglass" vacuum compressed technology ... transom, stringers, and subfloor. It is one of the few bay boats incorporating full upright foam floatation for the ultimate in family safety.

Open, roomy and very easy to maintain with diamond checkered slip resistant self bailing decks. Fishermen will find 6 rod tubes on the console plus a right and left rod lockers on the front deck. Up front you will also find a trolling motor mounting pad, and an anchor well large enough to securely hold a #13 Danforth in chocks. A step up, or down, up front features a nice size ice box.

The innovative "pivot" console folds down to allow garage storage! Up front of the console is a huge baitwell, and the lid makes a pretty good seat.

On the rear deck you will find a livewell, two (2) baitwells or storage compartments, and a rear access lid to provide access to bilge pumps, aerators, batteries etc. Very efficient use of every nook and cranny! Our structures carry a Transferable Limited Lifetime Warranty.

Console Quickly Folds Rearward For Easy Entry in a Normal Garage.

Trailers

Standard Features: (Excluding the Phelix)

3000 lb. Axle • Waterproof Bearings • 15" Aluminum Mod Wheels with Blackwall Goodyear Marathon Tires • 4" Steel Channel Construction • 1200 lb. Winch • Side Mount Jack • Recessed Spare Tire Mount • Spare Tire • Fiberglass Color Co-ordinated Fenders & Carpeting • Recessed Waterproof Lights • Polyurethane Enamel Finish • Surge Disk Brakes

Optional Equipment:

• Tandem Axle Trailer • Spare Hub and Bearing (Mounted Under Spare Tire) • Clear Coat Finish (2) Coats Required on White Trailers • IMCO Retractable Tie Downs • 15" Mod Wheels with Firestone Firehawk White Lettered Tires • 15" Hyper Wheels with Firestone Firehawk White Lettered Tires • Swing Away Tongue • Dual Axle Brakes • Pop Axle

• Note: Optional Dual Axle Brakes are recommended on all Cougar Trailers.

IMCO Retractable Tie Downs

The Very Finest Swing Away Tongue

POP Axle ... Moves a Tandem as a Single Axle Trailer

Standard Mod Wheel Blackwall

Optional Mod Wheel White Letters

Optional Hyper Wheel White Letters

Back Up Light

Most people take the trailer sitting under that shiny new boat for granted ... but we take our trailers very seriously. Unlike many manufacturers, Bass Cat builds Bass Cat Trailers ... one at a time, to fit the specific hull design of each model boat. Every member and cross support is jigged, fitted and welded in U.S. Steel to exact tolerances ... there is *zero adjustment* on a Bass Cat Trailer. Axles are also jigged, and welded in a pattern weld to assure minimal tire wear from caster to camber, and supported with a multi leaf trailer spring. Each trailer is painted and carpeted to perfectly

coordinate with the boat. Innovations as the newly designed Swing Away Tongue, and, the Tandem Pop Axle (which allows it to maneuver as a single axle) make life at home and on the road a lot more convenient for Bass Cat owners.

At Bass Cat, your safety and the investment you have made in your boat are not taken for granted ... we demand the highest quality materials and craftsmanship, for your safety and security ... it's a Bass Cat family tradition.

• NOTE: Optional Dual Axle Brakes are recommended on all Tandem Axle Trailers.

Optional Touch Pad Assembly ... Simple Touch "On" & "Off" Controls

EXTENDED LIFETIME TRANSFERABLE STRUCTURAL WARRANTY

Bass Cat Boats warrants each new fiberglass boat to its original noncommercial purchaser for a two (2) year period. Warranted to be free from defects in the workmanship and materials, under normal use and conditions. An extended Lifetime Warranty also applies. These are transferable warranties through an authorized Bass Cat dealer or through Bass Cat Boats. There is a charge for transferring the warranty and it may be transferred only under the guidelines issued at that time period. All components to be covered under the warranty must be operational at the time of transfer and validated by an authorized service center. Transfer is only complete upon receipt by Bass Cat of the approved qualification form and fees of transfer.

Extended *lifetime warranty* to the original consumer is transferable on used boats which are sold through an authorized Bass Cat dealership and/or pass a qualifications check list for that particular model. There is a charge for verification and transfer. Lifetime warranty covers manufacturers defects in the structure in its original state. Any modifications, additions or changes to the boat from its original manufactured condition may be judged invalid for transfer. Under those conditions only the fees for transfer will be redeemed. Qualification fees will be deemed as a service performed.

To validate the warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days of the original purchase. Under Federal law all boat manufacturers are required to notify first purchasers, in the event that any defect is discovered "which creates a substantial risk of personal injury to the public", or any noncompliance with Federal regulations by the manufacturer. Failure by any first purchaser to fill out and return the warranty registration card, may make it impossible for Bass Cat Boats to give direct notice to such purchaser.

This warranty does not apply to (1) Any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, fading, discoloring or any similar situation; (3) windshield breakage; (4) any boat which has been subject to misuse, neglect, accident, used for racing purposes or operated contrary to any instructions furnished by Bass Cat Boats; (5) upholstery damage; (6) any boat utilizing over a 6" jackplate or changing or altering of standard equipment offered specifically by Bass Cat; (7) any boat which has been overpowered, according to the maximum recommended engine horsepower specified for that particular model, on the capacity plate. (8) any part or component which has expired within a reasonable time of its expected operational period; (9) aluminum boats (as they are covered

under their separate warranty). Bass Cat warrants all Bass Cat trailers for a period of two (2) years, for noncommercial use under guidelines stated in this limited warranty. No exceptions or other offers apply. Tires and certain other items may be subject to their own independent warranty restrictions and available only through those companies agents or representatives. Transfer is applicable under transfer guidelines in this written warranty.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats. Bass Cat Boats expressly denies, on the part of any person to incur or assume for it, any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law, shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat Boats. During the term of this warranty repairs will be made free of charge at any authorized Bass Cat Service Center under guidelines accepted by Bass Cat, or by Bass Cat itself at its discretion. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final. Removal of components which are termed rigging parts will not be the responsibility of Bass Cat Boats. Bass Cat Boats will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

Bass Cat Boats accepts no liability for those components which are or may be marketed to the retail consumer and selected as optional equipment on a Bass Cat Boat. Examples of those components may be and are not limited to, outboard engines, propellers, fish finding equipment, instruments, trolling motors, battery chargers, engine controls and ignition switches, batteries, radio/stereos, bow guards and covers.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in colors, equipment, specifications, materials, hulls, prices, and discontinuation of models. When changes are made, we reserve the right to do so without incurring the obligations to equip, or modify, existing models built prior to the date of such changes.

Bass Cat Boats makes every effort to ensure that the brochure information herein is correct and accurate at the time of production. Continual product refinement and design changes may result in revisions to current products that may not be shown in this brochure. We reserve the right to make changes in models, specifications, colors, and features at any time. Please see your authorized Bass Cat Dealer for additional information, options and specific warranty information.
