We Build Dreams ... It's A Family Tradition!

Dreams are what give us our futures, and memories open our hearts. Ron's first dream of a hand built boat was stored on the front porch of his parents home. He ran it with his grandfathers outboard, usually without Grandad Bill knowing it. Well, he pretended as if he never knew? That old wooden boat was simply the start of many memories which would unfold over time, and fostered by those who cared.

That dream opened the door to a new world. A world of skiing and eventually bass fishing as life evolved and changed with family. From that old wooden boat others would follow as the Pierce family stayed active in the outdoors.

Eventually Ron achieved a successful career in the plastics industry. Things were changing and he and Jan looked for something different. In Mountain Home they purchased a small drive inn restaurant, after all Jan's parents had started one once. There cookin' chickens on a Sunday afternoon ran into the case lots. This was too monotonous for a dreamer who loved to fish. Fryers just didn't offer much in open spaces.

They moved forward and in 1971, Ron and Jan started Bass Cat in their two car garage. From there it moved to a small military style quansit hut ... which was fast outgrown. The one and final move was to the present location in 1972 where the factory stands today after several additions and alterations with the last made in 1999. Though there certainly will be more additions and changes to that part.

Over the years things in the business also changed. Those first Bass Cat boats could be purchased for less than \$1,000.00. The entire package wouldn't run more than \$2,500.00. While boats certainly have changed, the drive for memories has not.

The dream opened up with that innovative little cigar boat as it had turning strakes still used today on some very popular brands. Starting Bass Cat as an innovating, always changing company. Almost as if it were the farm club for boating products, and the Pro anglers who use them. No doubt we have seen many things come and go over the years. Still though we remain and we continue to be the testing grounds of new ideas and developing new technologies which eventually make their way to our competition. Eventually our innovations like

recessed trolling pedals and elevated electronics found their way into other boats. Just like the battery chargers and interior box lighting, they are not gimmicks. And neither are the production techniques, as we never were able to grasp the mid 70's concept of simply screwing a boat together. There was just something wrong in having to tighten screws that held the boat together after a long day on the water. So we always built bass boats as one unit. A construction method amazingly now claimed by many. Though claims are not proof and we have the proof.

And how about design, not only in 1971, in 1977 we took Vee hulls a new direction. That too was copied by the largest in our industry today. In 1984 we introduced the design which patterned the first of today's 19', 200 HP rated wide beam (92") bass boats. Those Pantera Pro models were revolutionary! Then in 1988 it was the Pantera II and Sabre ... the first of any of today's true tournament machines. The equipment on those Pantera II's, and Sabres is still unmatched by most ... and the Pantera IV (P4) led the way as the tradition continues.

The new 2005 Puma is probably the most innovative tournament boat since the Pantera II and Sabre of 1988. Then there is the new wide body hull for larger engines. Both with European styling which many only try to achieve, and again claim to have. Though again we were first.

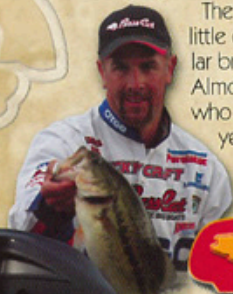

No doubt in the future some other company will announce their new exclusive, or innovative new idea similar to a wider beam, wider bottom, recess pedal area, fiberglass floor, transom, battery charger, or other features which we introduced first to bass fishing. Though that's OK, we are perfectly happy to remain the anglers "farm club" of ideas, and innovations for years to come.

We just hope you and your family take time to look at our "farm club." We want to continue to live a dream started in the 50's and pass it on through many generations to come. Building your dreams while living ours, while we enjoy the memories you give us. What better life would one possibly want.

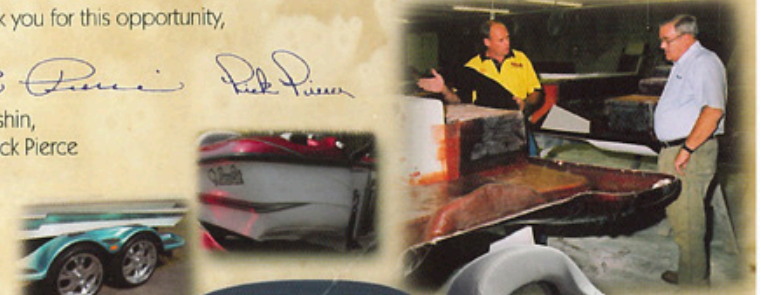

We thank you for this opportunity,

Ron Pierce *Rick Pierce*

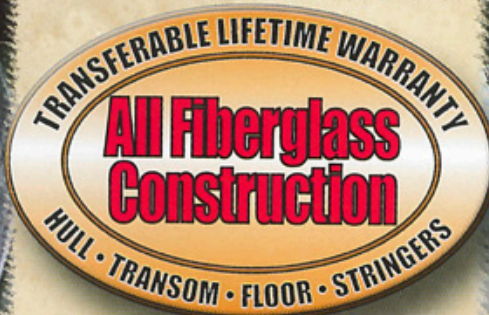

Good fishin,
Ron & Rick Pierce

Quest

We Build Dreams ... Every Facet of a Bass Cat is Built to Our Uncompromising Quality Standards ... Not Someone Else's!

Hand craftsmanship ... utilizing only the highest quality materials available is a family tradition at Bass Cat Boats which is not compromised. Each step in the manufacturing process is completed by individuals who demand quality ... with attention to the smallest detail in every phase of the boat building process. Customer satisfaction, while continually striving for perfection in our products is the basis of our success, of which we are very proud. Hopefully you look for it in every facet of the Bass Cat Boat. As you look at this "Family Album" of photos taken throughout the Bass Cat factory, keep in mind that our boats, trailers, wiring harnesses, are all made from raw materials at Bass Cat, *not made for Bass Cat.*

When we put the Bass Cat name on our boat, we know that every facet of the final product meets our uncompromising Quality Craftsmanship standards ... *not someone else's.*

PUMA

The Optional Wide Body Hull Allows the Use of the Standard Trailer with the Standard Puma Deck.

The Bass Cat Puma might be the best boat in any line up!

The "all fiberglass" compression manufacturing, utilizes our trademark vacuum process which is years ahead of other bass boats construction methods.

The 20'4" hull with it's 94" beam is rock solid. This hull is very stable, yet agile even in the roughest waters.

It has all of the high output engines in mind for 2006. The deck layout that provides storage from the bow to the console with six (6) compartments. There's even a place for your net and measuring board, close within reach. The Puma's new seats provide spring supported lumbar adjustment support in

all the right spots, perfect on a long run and the Euro' bolsters cradle you in glove like comfort. It continues with trendy modular consoles designed to provide space for a built-in LCR. Plus, conversion to a dual console (DC) is a pretty simple process. This console also sports a brand new custom designed Italian steering wheel with six (6) sides, and a new Bass Cat mark in the center cap.

Beside the console you will find two new cool additions. First, lighted handrails which are too cool, and added pop up mooring cleats at your fingertips for securing your ride at the dock or in a lock.

This new cat's going to cause a feeding frenzy.

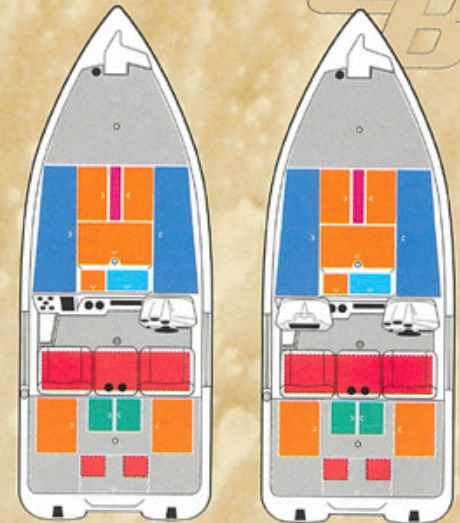

Boat Color Shown #P6647

The Puma's Optional Wide Body Hull and Transom Were Designed With Four Stroke Technology in Mind!

Approx. Wt.	1590 lb.
Approx. Wt. (DC).....	1605 lb.
Fuel Capacity	52 Gal.
Max. H.P. Range	175-285

The Cougar FTD (Full Team Deck) is the "bad boy" in the Bass Cat line up! It's all fiberglass hull utilizes our trademark vacuum compression manufacturing techniques. The 20'4" hull is rock solid providing a high performance hull which is very stable, yet agile even in rough water.

The deck layout provides storage from the bow to the console within six (6) compartments ... two are under one lid in the front center. Just short of the storage in an aircraft carrier. Vast additional storage is also found under the euro style bucket seats with an ice chest located in the center of the seat

arrangement. The new seats provide support in all the right spots and the bolsters cradle you in glove like comfort.

A compliment of standard features are found in this fishing machine. The aerodynamic dash is designed to protect an optional built-in digital graph/GPS.

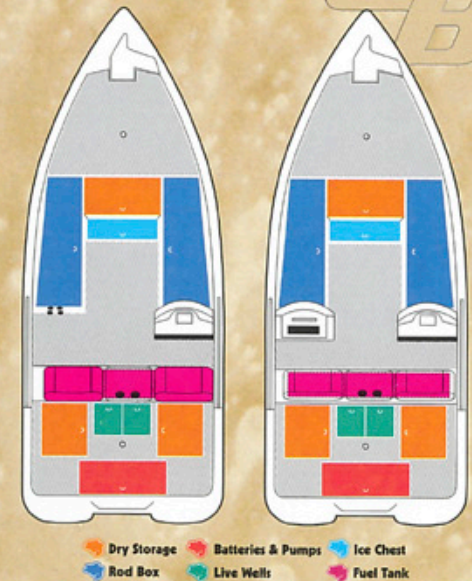

No plastic dashes, or fancy cover ups ... just an all out fishing machine from tip to stern.

All Bass Cat Boats are made with All Fiberglass hull construction techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty.

Pantera Classic

Optional Rod Box Organizer

Specifications:

Length	19'1"
Min. Storage Length	23'11"
With Swing Away Tongue	21'3"
<small>(Add 4" for Yamaha Outboards)</small>	
Beam	94"
Approx. Wt.	1245 lb.
Approx. Wt. (DC).....	1295 lb.
Fuel Capacity	33 Gal.
Max. H.P. Range	115-200

We listen to fishermen. This re-designed Panthera Classic hopefully will fit those anglers who find the 19' bass boat fits their desires by providing versatile performance and handling in all types of water conditions. The "all fiberglass" vacuum compressed hull, stringers, and transom offer a superior rough water ride and long term durability. A Lifetime Transferable Structural Warranty lets this Bass Cat Owner know he has a very high quality crafted product, backed by over 30 years of proven Customer Service from the founding Pierce Family!

Dual rod boxes, a mammoth front deck storage box, and two

(2) large storage boxes on the rear deck provide storage for both the owner and his partner. A center line trolling motor mount with recessed trolling motor pedal basin, plus a new modular console that allows for an optional built-in digital graph/GPS, aerated livewells, 33 gal. fuel tank, hydraulic steering and aluminum lids are just a few of the standard features on this new Panthera Classic.

A dual console (DC) Classic is also available for those who want the added protection for a partner, or, just prefer the looks of dual consoles. *Classic Economy Series features differ.

Standard Hydraulic Steering Shown in this Splashwell Shot.

It's like someone listened to the desires of every serious tournament fisherman, sat down with a piece of clay and molded the perfect 19' bass boat. No smoke and mirrors here, this is the real deal.

From the all fiberglass hull this P4 is pure perfection in quality, craftsmanship, and boating innovations. A new hull was required in maintaining performance with new storage demands. It worked. The huge front deck maintains our patented recessed trolling motor pedal basin at the bow ... and behind the pedal is nothing but storage all the way back to the consoles. Centered on front deck you will find a recessed net, and, Golden Rule storage pocket ... instant access at your fingertips! Surrounding the net are six (6) storage areas on the front deck alone that include 2 full length rod boxes, and a "step-up" ice chest.

The modular console design offers the availability of a built-in LCR on the face of the console.

A NEW Italian 6X custom steering wheel with six (6) sides sporting

a new Bass Cat Logo is not only cool looking but offer secure comfort while driving. NEW spring assisted lumbar support is featured in the Pantera IV's euro bucket seats, higher backs, and rolled bolsters also offer additional support. The roomier rear section of the deck finds compartments spacious and deep so your partner can stuff all of his day's needs in his "office."

A Pantera IV is available with dual modular consoles the passenger's console has a grab bar plus a large glove box for added storage.

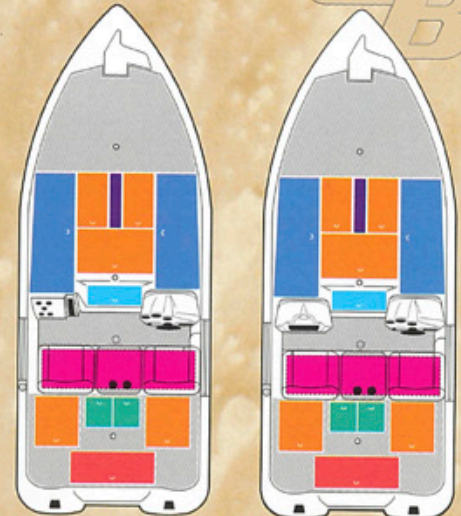

Compare the standard features, performance, handling, rough water ride, quality craftsmanship, customer satisfaction, and Bass Cats reputation to any bass boat on the market...bar none.

All Bass Cat Boats are made with innovative construction techniques. Our structures all carry a **Transferable Limited Lifetime Structural Warranty**.

NOTE: Some Options are Shown.

The 2006 Sabre features an extensive amount of storage, including rear deck passenger storage plus dual rod boxes with a step up ice chest. Yes, we listen to the anglers, talking about pros and cons of bass boats. The Sabre is truly a fun bass boat to drive, a quick throttle response will keep you in the fast lane right from the instantaneous "hole shot." Plus, this Sabre handles like a dream ... you know you are always in control, taking a turn smoothly.

Tournament fishermen will appreciate the added front and rear deck space as well as the recessed trolling motor basin to help relieve back, knee and ankle stress. Fishermen will be impressed with the list of standard features, from a

new aerodynamic modular console which can hold an optional built-in digital graph/GPS, dual steering, hydraulic lid openers, and a dual aerated livewell with a divider to name a few. What makes the Sabre stand out from other 18' boats on the market is the uncompromising Bass Cat quality throughout. Everything is designed to fit ... eliminating cover ups, and plastic dashes that fade. Plus, its manufactured with the same All Fiberglass hull construction techniques as the most expensive Puma. Plus, it carries the same Transferable Limited Lifetime Structural Warranty ... a real "biggie."

Console Quickly Folds Rearward For Easy Entry in a Normal Garage.

Boat Color Shown #J0318

The Bass Cat Bay Cat® is "The Most Versatile Boat we Build." More thought and development is found in the Bay Cat® than any other boat including our revolutionary Eyra which brought rounded rear decks and smoother profiles to bass boats in the early 90's.

This center console is designed to take on the tough demands of off shore fishing as well as great for stalking Reds, and Trout in the "backwater flats." The Bay Cat® will also be ideal for many freshwater applications. The recreational family will find no boat more versatile. Dad can bass fish, mom can sun on the back deck, and the kids can ride in comfort on the stowable rear bench seat.

Construction is our innovative "all fiberglass" vacuum compressed technology ... transom, stringers, and subfloor. It is one of the few bay boats incorporating full upright foam floatation for the ultimate in family safety.

Open, roomy and very easy to maintain with diamond checkered slip resistant self bailing decks. Fishermen will find 6 rod tubes on the console plus a right and left rod lockers on the front deck. Up front you will also find a trolling motor mounting pad, and an anchor well large enough to securely hold a #13 Danforth in chocks. A step up, or down, up front features a nice size ice box.

The innovative "pivot" console folds down to allow garage storage! Up front of the console is a huge baitwell, and the lid makes a pretty good seat.

On the rear deck you will find a livewell, two (2) baitwells or storage compartments, and a rear access lid to provide access to bilge pumps, aerators, batteries etc. Very efficient use of every nook and cranny! Our structures carry a Transferable Limited Lifetime Warranty.

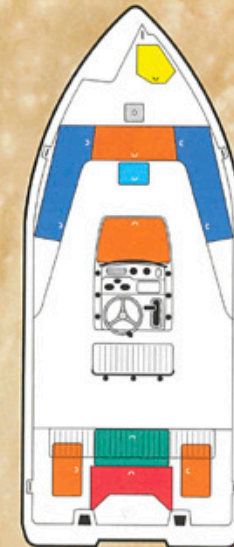

Bass Cat's Phelix is perfect for those anglers desiring a fiberglass boat which is very affordable. Great for small lakes or covering the saltwater "backcountry" in search of Redfish, and Snook.

This "All Fiberglass" boat is made with our vacuum compression manu-

facturing techniques just as our top of the line Bay Cat. All fiberglass to also stay cool on those summer outings. Looks real clean as well.

Economical, Easy Maintenance, Quality Construction, and Lifetime Transferable Structural Warranty ... a lifetime of fun on the water.

The Very Finest Swing Away Tongue

Aurora Custom Covers ... Custom Made to Fit Your Boat!

POP Axle ... Moves a Tandem as a Single Axle Trailer

Optional Back Up Light

Most people take the trailer sitting under that shiny new boat for granted ... but we take our trailers very seriously. Unlike many manufacturers, Bass Cat builds Bass Cat Trailers ... one at a time, to fit the specific hull design of each model boat. Every member and cross support is jigged, fitted and welded in U.S. Steel to exact tolerances ... there is *zero adjustment* on a Bass Cat Trailer. Axles are also jigged, and welded in a pattern weld to assure minimal tire wear from caster to camber, and supported with a multi leaf trailer spring. Each trailer is painted and carpeted to perfectly

coordinate with the boat. Innovations as the newly designed Swing Away Tongue, and, the Tandem Pop Axle (which allows it to maneuver as a single axle) make life at home and on the road a lot more convenient for Bass Cat owners.

At Bass Cat, your safety and the investment you have made in your boat are not taken for granted ... we demand the highest quality materials and craftsmanship, for your safety and security ... it's a Bass Cat family tradition.

• NOTE: Optional Dual Axle Brakes are recommended on all Tandem Axle Trailers.

EXTENDED LIFETIME TRANSFERABLE STRUCTURAL WARRANTY

Bass Cat Boats warrants each new fiberglass boat to its original noncommercial purchaser for a two (2) year period. Warranted to be free from defects in the workmanship and materials, under normal use and conditions. An extended Lifetime Warranty also applies. These are transferrable warranties through an authorized Bass Cat dealer or through Bass Cat Boats. There is a charge for transferring the warranty and it may be transferred only under the guidelines issued at that time period. All components to be covered under the warranty must be operational at the time of transfer and validated by an authorized service center. Transfer is only complete upon receipt by Bass Cat of the approved qualification form and fees of transfer.

Extended *lifetime warranty* to the original consumer is transferable on used boats which are sold through an authorized Bass Cat dealership and/or pass a qualifications check list for that particular model. There is a charge for verification and transfer. Lifetime warranty covers manufacturers defects in the structure in its original state. Any modifications, additions or changes to the boat from its original manufactured condition may be judged invalid for transfer. Under those conditions only the fees for transfer will be redeemed. Qualification fees will be deemed as a service performed.

To validate the warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days of the original purchase. Under Federal law all boat manufacturers are required to notify first purchasers, in the event that any defect is discovered "which creates a substantial risk of personal injury to the public", or any noncompliance with Federal regulations by the manufacturer. Failure by any first purchaser to fill out and return the warranty registration card, may make it impossible for Bass Cat Boats to give direct notice to such purchaser.

This warranty does not apply to (1) Any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, fading, discoloring or any similar situation; (3) windshield breakage; (4) any boat which has been subject to misuse, neglect, accident, used for racing purposes or operated contrary to any instructions furnished by Bass Cat Boats; (5) upholstery damage; (6) any boat utilizing over a 6" jackplate or changing or altering of standard equipment offered specifically by Bass Cat; (7) any boat which has been overpowered, according to the maximum recommended engine horsepower specified for that particular model, on the capacity plate. (8) any part or component which has expired within a reasonable time of its expected opera-

tional period; (9) aluminum boats (as they are covered under their separate warranty). Bass Cat warrants all Bass Cat trailers for a period of two (2) years, for noncommercial use under guidelines stated in this limited warranty. No exceptions or other offers apply. Tires and certain other items may be subject to their own independent warranty restrictions and available only through those companies agents or representatives. Transfer is applicable under transfer guidelines in this written warranty.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats. Bass Cat Boats expressly denies, on the part of any person to incur or assume for it, any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law, shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat Boats. During the term of this warranty repairs will be made free of charge at any authorized Bass Cat Service Center under guidelines accepted by Bass Cat, or by Bass Cat itself at its discretion. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final. Removal of components which are termed rigging parts will not be the responsibility of Bass Cat Boats. Bass Cat Boats will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

Bass Cat Boats accepts no liability for those components which are or may be marketed to the retail consumer and selected as optional equipment on a Bass Cat Boat. Examples of those components may be and are not limited to, outboard engines, propellers, fish finding equipment, instruments, trolling motors, battery chargers, engine controls and ignition switches, batteries, radio/stereos, bow guards and covers.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in colors, equipment, specifications, materials, hulls, prices, and discontinuation of models. When changes are made, we reserve the right to do so without incurring the obligations to equip, or modify, existing models built prior to the date of such changes.

Bass Cat Boats makes every effort to ensure that the brochure information herein is correct and accurate at the time of production. Continual product refinement and design changes may result in revisions to current products that may not be shown in this brochure. We reserve the right to make changes in models, specifications, colors, and features at any time. Please see your authorized Bass Cat Dealer for additional information, options and specific warranty information.

Warranty
