*Feel the Rush!*

2008

# Feel the Rush!

"Feel the Rush" as we embark on our course past 36 years of boat building history, and into our 37th season. We live our dream, building boats for you, as you live out your dreams. Along the way building memories, placing stepping stones for future memories, and charting our courses to the future.

As with our inception in 1971, we have the same values and goals moving forward. The goal is to remain a moderate-sized boat company with family values and family ownership, while continuing a tradition and heritage, unparalleled in the tournament bass boat industry.

In recent brochures, we told the story of our history. A history that started in the 1950's ('53), with Ron building his first boat in high school. That old boat we have often shown on the front porch of his parent's home. We then told the story about the start of BCB, back in 1971. About progressing our move to the present location in 1972, plus all of the additions along the way.

Pivotal years and new designs came along and innovations appear in those model years going back to '77, '84, '88, '94, '96, 2000 and 2003. All of these mark our history where we leap frogged to the next goal. No doubt 2008 will be another one of those marks. We evolved in order to **Excel**. The most recent evolution process, in 2003, prefaced the Puma in 2005. This carried right on through and into 2007 as we reintroduced the new Pantera II and later in '07 the Marty Stone Edition, Sabre FTD.

2008 is no different as we move to improve and offer better services where our "Family" has requested. First let us present a tweaking to our lone Paper Tiger, Quest! Quest is the BCB tournament incentive program. In '08 there is a section for Co-Anglers who are members of Quest. Also, public now are some of the incentives for

BASS and FLW events which have been private in the past. Quest is the most open concept in bonus programs, and we are working to keep it just that!

As for new products in 2008, we introduced a new 20' hull, which improves the ride substantially, and merges the benefits of previous hulls. Gaining a fidget in speed is nice too! This hull is shared on the Puma and the newest '08 Cougar FTD. The new Cougar FTD is built for those hard core tournament anglers, and will be very popular model for that application. While the 20' Puma will remain the choice for that "Baby Boomer" generation with it's premium ride.

We are going to continue to work hard to earn your support, and we work even harder to keep it! This sets us apart from those corporate affiliates. We have been proving this for years, with a family heritage longer than any other tournament bass boat.

For two (2) years, Bass Cat has led the **entire marine industry** on Customer Satisfaction. This was presented in a media press conference last February in Miami. From a Grady White to a Cobalt, or from Mercury and Yamaha, to Evinrude, we have the most satisfied Owners, **bar none**. And we have those three (3) consecutive J.D. Power and Associates awards to prove it. You see, we want to build the boats that make you feel proud to be in, as well as proud of. And we want to do that with the quality, and above all else, a customer service that is unparalleled in our business.

Innovation is a mission for us, and a must to keep moving your needs forwards. The list of innovative concepts in a Bass Cat is too long to print here. We are far from done with our legacy, and we never intend to be done. There will be more innovations, like that 6X custom Italian steering wheel and the rounded styling from 1994. Even details like the buoy marker storage in that new Cougar FTD. These are only a small part of what makes us different.

Our history includes many Pro anglers, that got a start with Bass Cat. Many are no longer with us and we are pleased to have been a

part of those careers. In the 2005 brochure we spoke of ourselves as the "Farm Club." This was in reference to building careers that moved on to other companies.

Of course with Mark Tyler, James Niggemeyer, Marty Stone, Mike Iaconelli (Ike), John Crews, Russ Lane, Mark Tucker, Kevin Short, Kota Kiriya and many others on staff, we are far from a "Farm Club" anymore. And a good portion of these folks started their careers with BCB.

We have evolved from a family owned boat company, to a family of Owners, learning what it means to be a Bass Cat "Family" member.

This is never more present than on our Owner's Board, where the "Family" exhibits a character we are extremely proud of! They are enthusiasts who show a tremendous amount of dedication. They want to help as much as we do! They are our most important staff, and the "Family."

Their families are a part of this, as are they, and we have truly been blessed with that dedication and support.

In any industry you either, lead, evolve or die. We intend on leading as we have and continuing to do so for many years. So that maybe someday all of our grandchildren can all be a part of this. That all starts with you, and us of course.

Good Fishin'

Ron & Rick Pierce

# Craftsmanship

Hand craftsmanship ... utilizing only the highest quality materials available is a family tradition at Bass Cat Boats which is not compromised. Each step in the manufacturing process is completed by individuals who demand quality ... with attention to the smallest detail in every phase of the boat building process. Customer satisfaction, while continually striving for perfection in our products is the basis of our success, of which we are very proud. Hopefully you look for it in every facet of the Bass Cat Boat. As you look at this "Family Album" of photos taken throughout the Bass Cat factory, keep in mind that our boats, trailers, wiring harnesses, are all made from raw materials at Bass Cat, *not made for Bass Cat.*

When we put the Bass Cat name on our boat, we know that every facet of the final product meets our uncompromising Quality Craftsmanship standards ... *not someone else's.*

# Puma

The Bass Cat Puma just might be the best boat in any line up!

The "all fiberglass" compression manufacturing, utilizes our trademark vacuum process which is years ahead of other bass boats construction methods.

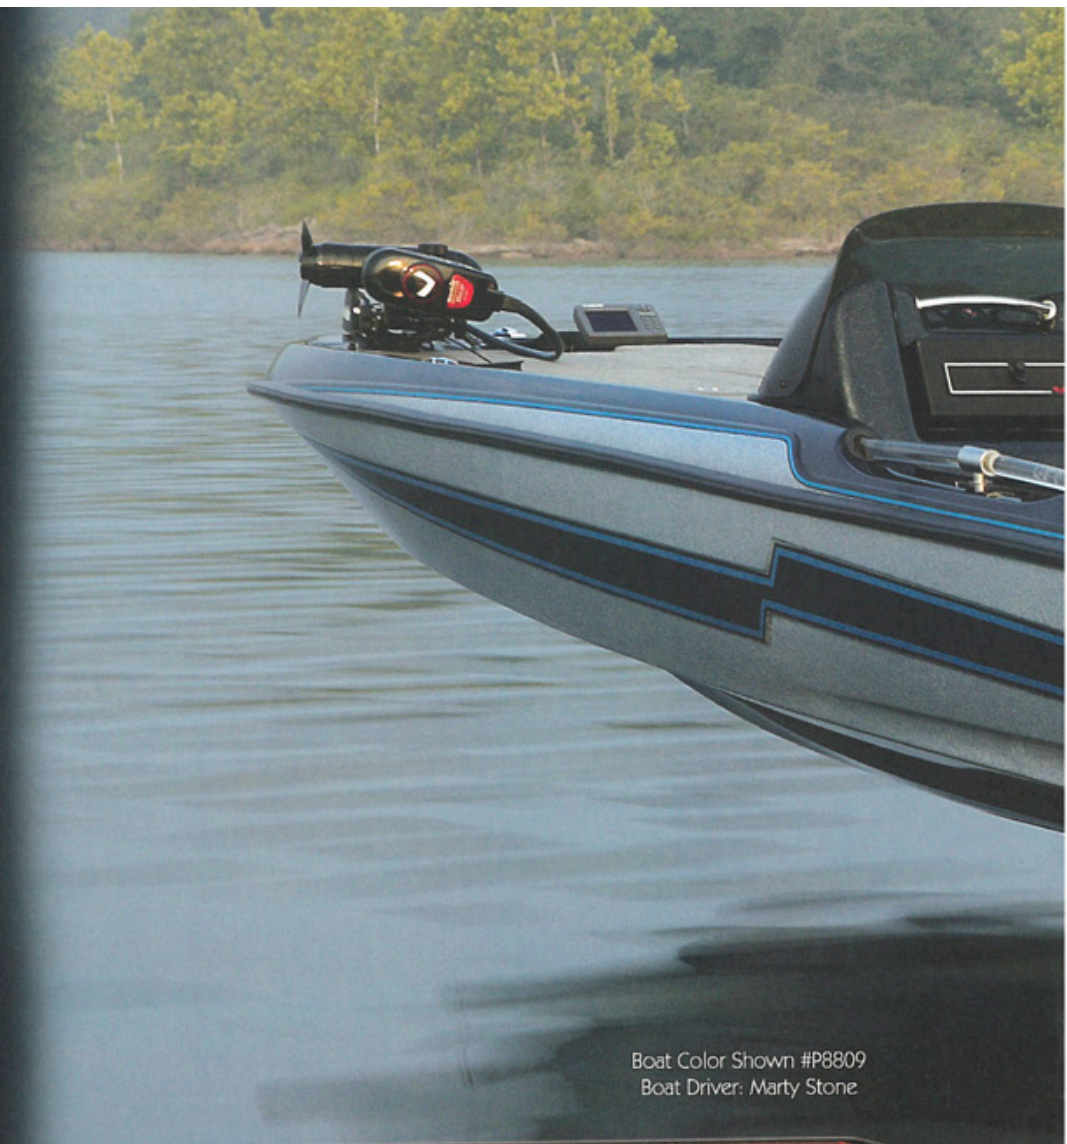

This is a totally new hull for 2008, and measures 20'4" with a 94" beam, it's rock solid. This new euro style hull with it's subtle flares offer a shallower draft while other hull innovations have increased it's performance overall characteristics.

The deck layout provides storage from the bow to the console with six (6) compartments. There's even a place for your net and measuring board, close within reach. The Puma's seats provide support in all the right spots, perfect on a long run and the Euro bolsters cradle you in glove like comfort. It continues with trendy modular consoles designed to provide space for a built-in LCR. Plus, conversion to a dual console (DC) is a pretty simple process. This console also sports a custom designed Italian steering wheel with six (6) sides, and a Bass Cat mark in the center cap.

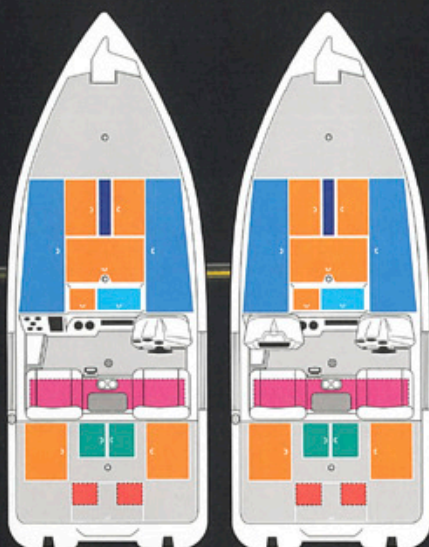

Beside the console you will find two very unique features. First, lighted handrails which are too cool, and added pop up mooring cleats at your fingertips for securing your ride at the dock or in a lock.

Compare the standard features, performance, handling, rough water ride, quality craftsmanship, customer satisfaction, and Bass Cats reputation to any bass boat on the market ... bar none.

Our structures carry a Transferable Limited Lifetime Structural Warranty.

# Cougar

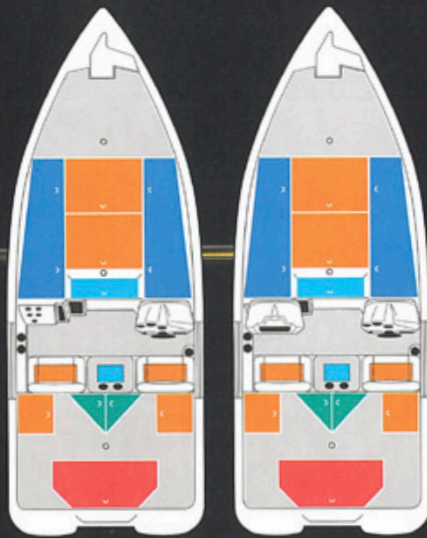

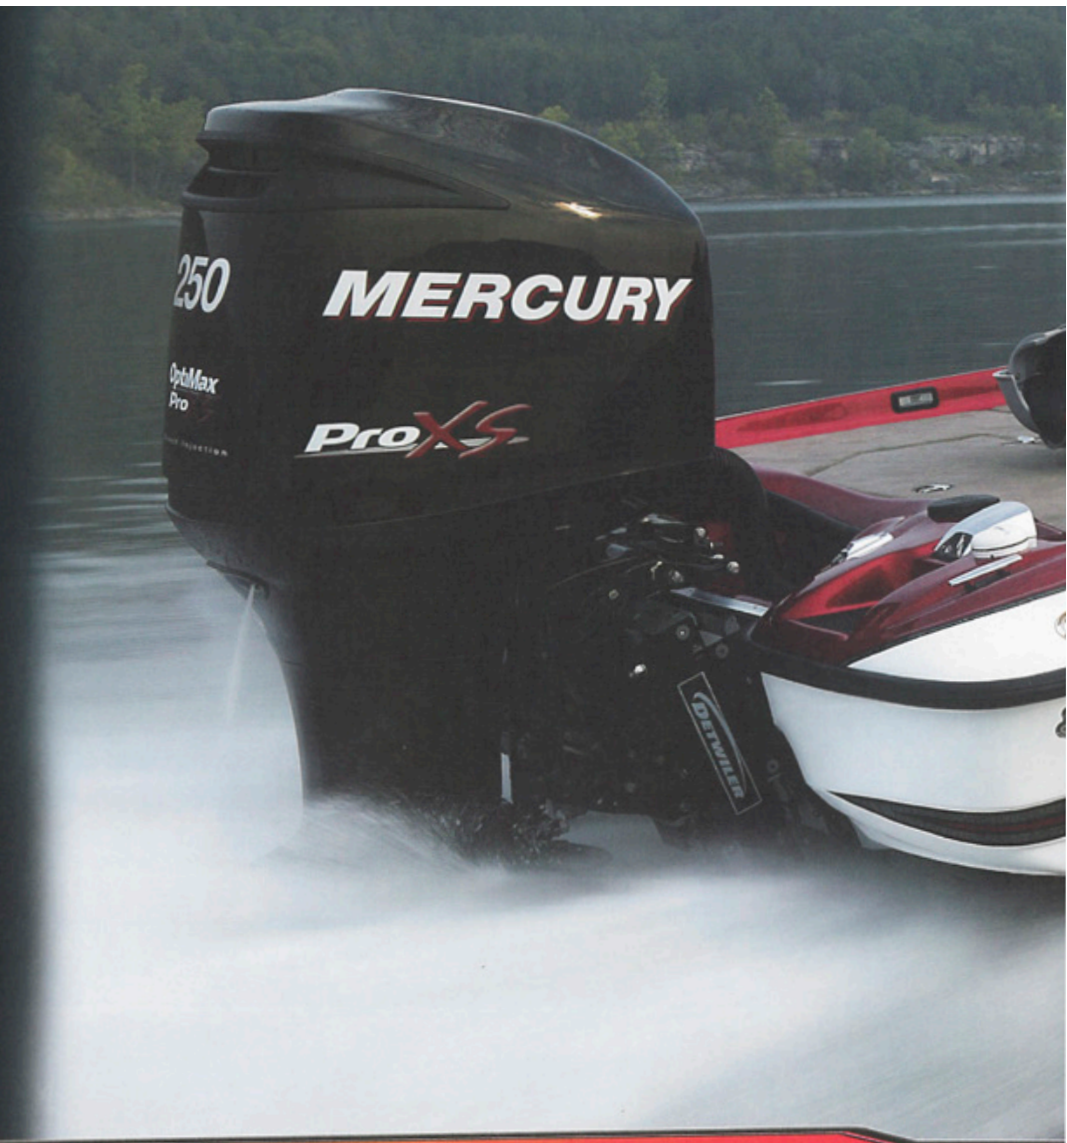

Bass Cat's new Cougar FTD introduces a new euro hull design encompassing 36 years of bass boat design innovations.

2008 brings a new top cap design which includes a unique livewell design in the new Cougar FTD. These triangle shaped livewells offer more space for your catch and added 10 gallons to the capacity. The front deck even has a place for your buoy markers, every tournament fisherman needs these. That 2008 Cougar FTD top cap is resting on a on a totally new hull for 2008 which is utilized both in this FTD and our 20' Puma. This hull provides an improved ride and handling. The console offers user friendly touch pads and other digital technologies as state of the art instrumentation for monitoring the pulse of the outboard, or livewell water conditions assuring the day's catch is released safely.

The deck layout provides storage from the bow to the console within six (6) compartments ... two are under one lid in the front center. Vast additional storage is also found under the new euro style bucket seats with an ice chest located in the center of the seat arrangement.

A compliment of standard features are found in this Cougar FTD. No plastic dashes, or fancy cover ups ... just an all out fishing machine from tip to stern.

All Bass Cat Boats are made with All Fiberglass hull construction techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty.

# Cougar Advantage

The Cougar Advantage features a 20'4" hull that is a rock solid high performance hull.

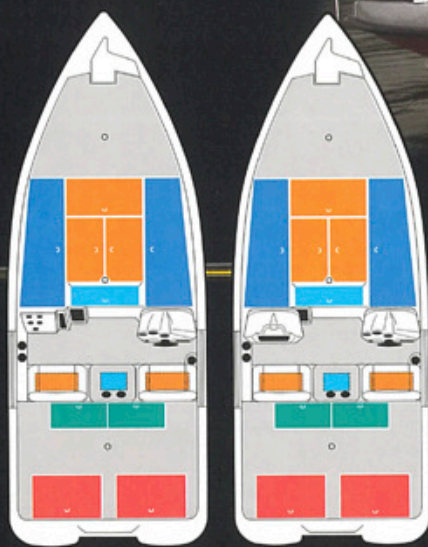

The deck layout provides storage from the bow to the console within six (6) compartments ... two are under one lid in the front center. Just short of the storage in an aircraft carrier. Vast additional storage is also found under the euro style bucket seats with an ice chest located in the center of the seat arrangement. These seats provide support in all the right spots and the bolsters cradle you in glove like comfort.

A compliment of standard features are found in this fishing machine. The aerodynamic dash is designed to protect an optional built-in digital graph/GPS.

All Bass Cat Boats are made with All Fiberglass hull construction techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty.

# Pantera IV

It's like someone really listened to the desires of every serious tournament fisherman, sat down with a piece of clay ... and molded the perfect 19' bass boat.

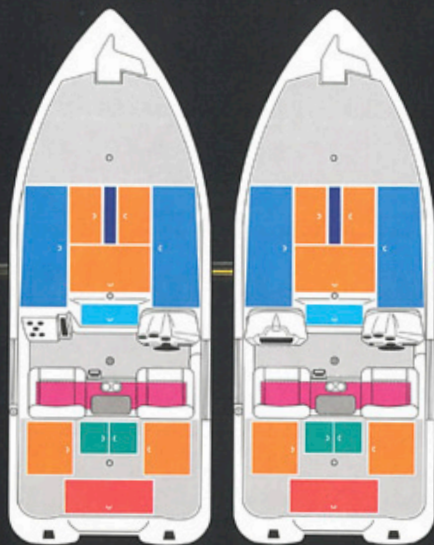

This vacuum molded all fiberglass hull is pure perfection in quality, craftsmanship, and boating innovations.

The front deck maintains our patented recessed trolling motor pedal basin at the bow ... behind the pedal is nothing but storage all the way back to the consoles. Up front you will find a recessed net and Golden Rule storage pocket ... instant access! Surrounding the net are six (6) storage areas on the front deck alone including 2 full length rod boxes, and a "step-up" ice chest.

The modular console design brings with it another first in the 19' industry is the availability of a huge 7" screen built-in LCR on the face of the console.

An Italian design steering wheel with six (6) sides is not only cool looking but offers secure comfort while driving. The Pantera IV's euro bucket seats provide higher backs, and rolled bolsters also offer additional support.

The roomier rear section of the deck finds compartments spacious and deep so your partner can stuff all of his day's needs in his "office" close at hand.

# Pantera II

Bass Cat reintroduced the Pantera II last year as part of its 35th anniversary celebration. Bass Cat has built more Pantera IIs than any other model in the company's history.

This Pantera II measures 19' 1" in length with a 93" beam that carries a 200-hp rating. The floor plan features dual rod lockers and huge dual storage boxes on the front deck, and a divided cooler. The rear width of the front deck is just short of 60." Two rear deck storage areas are very large, and straddle dual livewells. A neat step to the rear deck matches the top cap of the boat and is built to house your throw cushion plus a retractable grab strap for the passenger.

Unlike it's ancestors, this new Pantera II is built with our innovative "all fiberglass" compression manufacturing techniques. This method of construction utilizes our trademarked vacuum process which is years ahead of other bass boat construction processes and offers our Transferable Limited Lifetime Structural Warranty.

This cat's already started quite a stir as it continues the Pantera II tradition in our history books.

# Pantera

## Classic

We listen to fishermen. This re-designed Pantera Classic hopefully will fit those anglers who find the 19' bass boat fits their desires by providing exceptional "big boat" performance and handling in all types of water conditions. The "all fiberglass" vacuum compressed hull, stringers, and transom offer a superior rough water ride and long term durability. A Lifetime Transferable Structural Warranty lets this Bass Cat Owner know he has a very high quality crafted product!

Dual rod boxes, a mammoth front deck storage box, and two (2) large storage boxes on the rear deck provide storage for both the owner and his partner. A center line trolling motor mount with recessed trolling motor pedal basin, plus a new modular console that allows for an optional built-in digital graph/GPS, aerated and recirculating livewells, 33 gal. fuel tank, and aluminum lids are just a few of the standard features on this new Classic.

A dual console (DC) Classic is also available for those who want to offer added protection for a partner, or, just prefer the looks of dual consoles.

# Sabre

This Sabre is truly fun to drive, a quick throttle response will keep you in the fast lane right from the instantaneous "hole shot". Plus, this Sabre handles like a dream ... you know you are always in control, and it will take a turn smoothly, no hopping or skipping.

Tournament fishermen will appreciate the added front and rear deck space as well as the recessed trolling motor basin to help relieve back, knee and ankle stress. Fishermen will also be impressed with the list of standard features, from a new aerodynamic modular console which can hold an optional built-in digital graph/GPS, dual steering, hydraulic lid openers, two (2) rear storage compartments, and a dual aerated livewell with removable divider to name a few. When you are comparing the Sabre to other 18' boats the impressive list of standard features and uncompromising Bass Cat quality throughout will prove this to be one of the best "values" on the market.

A very important point to remember is all Bass Cat Boats are made with "All Fiberglass Construction" techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty ... a real "biggie."

FTD

*Marty Stone*

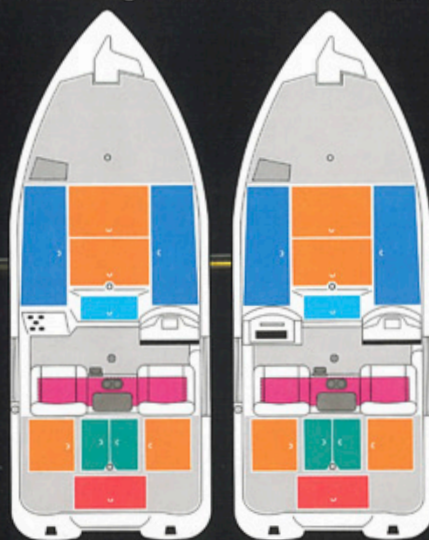

When Marty Stone and Rick Pierce put similar thoughts on a table napkin a new breed of Cat appeared. Targeting younger tournament anglers as well as seasoned anglers who don't face big water on a regular schedule, this boat fits a strong emerging market.

The front deck floor plan features dual rod lockers and huge dual storage boxes. A unique recessed pocket on the deck helps hold rods and reels in place, plus you'll find a divided cooler. Two rear deck storage areas are very large, and straddle dual livewells. A neat step makes easy access to the rear deck. This step matches the top cap of the boat and is built to house your throw cushion plus a retractable grab strap for the passenger. A hot new console provides easy visibility of all gauges and accommodates a mid size LCR.

This new Sabre FTD is built with our innovative "all fiberglass" compression manufacturing techniques. This method of construction utilizes our trademarked vacuum process which is years ahead of other bass boat construction processes and offers our Transferable Lifetime Structural Warranty.

The Sabre FTD comes in all three engine options.

This new Cat's already started quite a stir, and we feel it will make waves among serious tournament anglers.

# Bay Cat

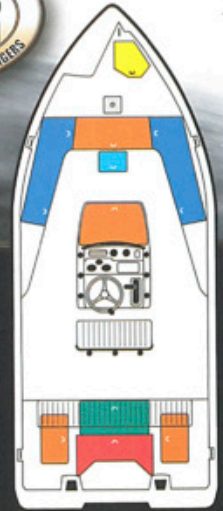

The Bass Cat Bay Cat® is our biggest project to date ... both in size and complexity. More thought and development is found in the Bay Cat® than any other boat including our revolutionary Eyra which brought rounded rear decks and smoother profiles to bass boats in the early 90's.

This center console is designed to take on the tough demands of off shore fishing as well as great for stalking Reds, and Trout in the "backwater flats". The Bay Cat® will also be ideal for many freshwater applications. The Striper fisherman will find no equal. Construction is our most innovative "all fiberglass" vacuum compressed technology ... transom, stringers, and subfloor incorporating full upright foam flotation.

Open, roomy and very easy to maintain with diamond checkered slip resistant self bailing decks. Fishermen will find 6 rod tubes on the console plus a right and left rod lockers on the front deck. Each featuring rod organizers to protect your valuable equipment. Up front you will also find a trolling motor mounting pad, and an anchor well large enough to securely hold a #13 Danforth in chocks. A step up, or down, up front features a nice size ice box. The innovative "pivot" console folds down to allow garage storage ... how about that! Up front of the console is a huge baitwell, and the lid makes a pretty good seat. Behind the full instrumentation console you'll find a leaning bench, plus ... a new retractable plus removable bench seat behind it. Talk about versatility. On the rear deck you will find a huge livewell, two (2) baitwells or storage compartments, and a rear access lid to provide easy access to bilge pumps, aerators batteries etc. Very efficient use of every nook and cranny! If you are considering a center console ... don't miss the Bass Cat Bay Cat®!

Bass Cat

# Phelix

Bass Cat's Phelix is perfect for those anglers desiring a fiberglass boat which is very affordable. Great for small lakes or covering the saltwater "backcountry" in search of Redfish, and Snook.

This "All Fiberglass" boat is made with our vacuum compression manufacturing techniques just as our top of the line Puma.

Economical, Easy Maintenance, Quality Construction, and a Lifetime Transferable Structural Warranty all add up to ... a lifetime of fun on the water.

Grab Bar & Step System make entry from the trailer a snap.

The Very Finest Swing Away Tongue

# Bass Cat Custom Trailers

Most people take the trailer sitting under that shiny new boat for granted ... but we take our trailers very seriously. Unlike many manufacturers, Bass Cat builds Bass Cat Trailers ... one at a time, to fit the specific hull design of each model boat. Every member and cross support is jigged, fitted and welded in U.S. Steel to exact tolerances ... there is zero adjustment on a Bass Cat Trailer. Axles are also jigged, and welded in a pattern weld to assure minimal tire wear from caster to camber, and supported with a multi leaf trailer spring. Each trailer is painted and carpeted to perfectly coordinate with the boat. Innovations as the newly designed Grab Bar and Step System, Swing Away Tongue, and the Tandem Pop Axle

(which allows it to maneuver as a single axle) make life at home and on the road a lot more convenient for Bass Cat Boat owners. Also note our innovative new GatorHyde™, an Optional heavy protective clear coating which offers a rubberized-like surface coating to repel harmful impacts from rocks and other road debris.

At Bass Cat, your safety and the investment you have made in your boat are not taken for granted ... we demand the highest quality materials and hand craftsmanship, for your safety and security ... it's a Bass Cat family tradition.

- NOTE: Optional Dual Axle Brakes are recommended on all Tandem Axle Trailers.

Boat Buckle Retractable Tie Downs

Innovative designs ... our Grab Bar & Step System make entry from the trailer a snap. Perfect for those who also launch by themselves. The tongue step is also available as an aftermarket "add-on" for older trailers.

Standard Mod Wheel Blackwall

 2008

# Owner's Invitational

Every year we look forward to our "Family Reunion"... The Bass Cat Owner's Invitational on Lake Norfolk. We call this a family reunion because it's one time each year that all Bass Cat owners (our family) are invited to Mountain Home, Arkansas for some good ole Ozark hospitality. Our only goal is to show our sincere appreciation to our family of Bass Cat Boat owners.

The two day Thursday & Friday Invitational begins with registration on Wednesday evening. Thursday morning is truly a sight to behold, as the sun peeks over the mountains, your heart starts pounding a little faster as the daylight reveals a bay with little lights dancing all around on the water. It's not often that you see such a spectacle as 700-800 Bass Cat Boats staged for an early morning tournament takeoff. It is an overwhelming sight to behold.

The Bass Cat Owner's Invitational is a true family affair. We provide an atmosphere for family participation.

Friday morning brings the final day of competition and some serious thinking, and wondering if any of those fish stories heard the night before had any truth to them. The afternoon's final day weigh-in provides a little computer printout that makes several folks really appreciate this "Family Reunion." Following the final weigh-in contestants get a little time to relax, and swap a few fish stories before getting ready for the trip home.

We promise you one thing, on the way home you will be looking forward to the next year's Bass Cat Owner's Invitational.

# Warranty Extended Lifetime Transferable Structural Warranty

Bass Cat Boats warrants each new fiberglass boat to its original noncommercial purchaser for a two (2) year period. Warranted to be free from defects in the workmanship and materials, under normal use and conditions. An extended Lifetime Warranty also applies. These are transferrable warranties through an authorized Bass Cat dealer or through Bass Cat Boats. There is a charge for transferring the warranty and it may be transferred only under the guidelines issued at that time period. All components to be covered under the warranty must be operational at the time of transfer and validated by an authorized service center. Transfer is only complete upon receipt by Bass Cat of the approved qualification form and fees of transfer.

Extended Lifetime warranty to the original consumer is transferable on used boats which are sold through an authorized Bass Cat dealership and/or pass a qualifications check list for that particular model. There is a charge for verification and transfer. Lifetime warranty covers manufacturers defects in the structure in its original state. Any modifications, additions or changes to the boat from its original manufactured condition may be judged invalid for transfer. Under those conditions only the fees for transfer will be redeemed. Qualification fees will be deemed as a service performed.

To validate the warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days of the original purchase. Under Federal law all boat manufacturers are required to notify first purchasers, in the event that any defect is discovered "which creates a substantial risk of personal injury to the public," or any noncompliance with Federal regulations by the manufacturer. Failure by any first purchaser to fill out and return the warranty registration card, may make it impossible for Bass Cat Boats to give direct notice to such purchaser.

This warranty does not apply to (1) Any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, fading, discoloring or any similar situation; (3) windshield breakage; (4) any boat which has been subject to misuse, neglect, accident, used for racing purposes or operated contrary to any instructions furnished by Bass Cat Boats; (5) upholstery damage; (6) any boat utilizing over a 6" jackplate or changing or altering of standard equipment offered specifically by Bass Cat; (7) any boat which has been overpowered, according to the maximum recommended engine horsepower specified for that particular model, on the capacity plate. (8) any part or component which has expired within a reasonable time of its expected operational period; (9) aluminum boats (as they are covered under their separate

Bass Cat Boats makes every effort to ensure that the brochure information herein is correct and accurate at the time of production. Continual product refinement and design changes may result in revisions to current products that may not be shown in this brochure. We reserve the right to make changes in models, specifications, colors, and features at any time. Please see your authorized Bass Cat Dealer for additional information, options and specific warranty information.

warranty). Bass Cat warrants all Bass Cat trailers for a period of two (2) years, for noncommercial use under guidelines stated in this limited warranty. No exceptions or other offers apply. Tires and certain other items may be subject to their own independent warranty restrictions and available only through those companies agents or representatives. Transfer is applicable under transfer guidelines in this written warranty.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats. Bass Cat Boats expressly denies, on the part of any person to incur or assume for it, any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law, shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat Boats. During the term of this warranty repairs will be made free of charge at any authorized Bass Cat Service Center under guidelines accepted by Bass Cat, or by Bass Cat itself at its discretion. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final. Removal of components which are termed rigging parts will not be the responsibility of Bass Cat Boats. Bass Cat Boats will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

Bass Cat Boats accepts no liability for those components which are or may be marketed to the retail consumer and selected as optional equipment on a Bass Cat Boat. Examples of those components may be and are not limited to, outboard engines, propellers, fish finding equipment, instruments, trolling motors, battery chargers, engine controls and ignition switches, batteries, radio/stereos, bow guards and covers.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in colors, equipment, specifications, materials, hulls, prices, and discontinuation of models. When changes are made, we reserve the right to do so without incurring the obligations to equip, or modify, existing models built prior to the date of such changes.
