TOTAL PERFORMANCE BASS BOATS

WE BUILD DREAMS ... IT'S A FAMILY TRADITION!

Feel the Rush!

WE BUILD DREAMS ... IT'S A FAMILY TRADITION!

A few years back, we would speak of our long term success. That made us proud as we said that we as a company had never burned, bankrupted or sold, and remained under that same family ownership. In times like those past this statement rings truer now than ever before. And we are still proud, though we are also humbled.

Today we are fortunate to still be living our dream, building your dreams. Now in our 38th season we have enjoyed the good times and survived the bad times of our sport. When setbacks have occurred, we've emerged stronger and stealthier. These times are no different and the lessons we learn strengthen us.

In 1971 we started as a family building the best in bass rigs. Now in 2010 we share those same values and goals moving forward. Proving this are the five (5) consecutive

J.D. Power and Associates awards which you as customers have awarded us. You see, we want to build boats that make you proud. And we want that with outstanding quality, and above all else, a customer service that is unparalleled in our business. We've built our mark on it!

The Pierce boat history began in the 1950's ('53), from wooden kit boats and eventually progressed to what we build today. The story of the start of BCB, in 1971, is told with a passion and commitment from sweat equity. While sweat equity earns your respect, it also built a company with a product and heritage for years to come.

In keeping with that heritage of new designs, 2010 brings us the Jaguar. The

Jaguar lives up to it's heritage at the top of our pride of Cats. It was displayed at our dealer meeting "Excellence In Action", and the Jaguar is no exception as it is truly a remarkable boat. The innovations in the Jaguar will be carried forwards and more will follow in other designs. We have some surprises yet for the year to come.

We continue hard at work and you can expect more. This sets us apart from those corporate affiliates. Innovation is a mission for us, and a must to keep your needs in the forefront. The 6X custom Italian steering wheel, or the recessed trolling pedal are only pages in our innovation book. Even this booklet is innovative as we made it to stick in your jeans pocket. This is a small part of what makes us different. Because we are different! In the 2005 brochure we spoke of ourselves as the "Farm Club." References we made to building careers that moved on. With nine (9) anglers in the Bassmasters Classic in 2010, we continue to distance ourselves from a "farm club" today. Many of these men started their careers with a BCB, just like you. All a part of the same "Family" you share as a Bass Cat Owner.

That "Family" is never more present than our Owner's Board, where they exhibit a character we are extremely proud of! They want to help as much as we do! They are our most important staff, our most valuable asset and the real "Family." Their families are also a part of this, and we have truly been blessed with that dedication and support.

We said before, in any industry you either, lead, evolve or die. Leading is all we know to do and we continue to do so, in that perhaps someday all of our grandchildren can all be a part of this. It's all up to you?

Stick this little brochure in your back pocket and carry it with you. When you get time, pull it out and take a look at it! And thank you for taking your time to consider a Bass Cat Boat a part of your dream!

Good Fishin!
Ron & Rick Pierce

HULL • TRANSOM • FLOOR • STRINGERS

Hand craftsmanship ... utilizing only the highest quality materials available is a family tradition at Bass Cat Boats which is not compromised. Each step in the manufacturing process is completed by individuals who demand quality ... with attention to the smallest detail in every phase of the boat building process. Customer satisfaction, while continually striving for perfection in our products is the basis of our success, of which we are very proud. Hopefully you look for it in every facet of

the Bass Cat Boat. As you look at this "Family Album" of photos taken throughout the Bass Cat factory, keep in mind that our boats, trailers, and wiring harnesses, are all made from raw materials at Bass Cat, *not made for Bass Cat.*

When we put the Bass Cat name on our boat, we know that every facet of the final product meets our uncompromising Quality Craftsmanship standards ... *not someone else's.*

This new, limited production, Bass Cat leaves nothing on the "I need" list. At 21' 5" this new Cat is a monster, with ratings for up to a 350 engine. It is pretty nimble as it jumps out of the hole in a handful of seconds, and reaches a GPS top end from high 60's to mid 70's. Speed, of course, will depend on factors such as load, power and water conditions.

In the mid 2000 era Bass Cat sidelined the Jaguar name until a boat was built that was worthy of that iconic heritage started in 1996. This new Jaguar has achieved that goal!

This rig is designed to address a luxury bass boat market in unmatched style. It is a massive rig with a huge deck expanse including a 6' casting deck (width). Overall there are eight (8) storage areas between the bow and console, including two of the most innovative tackle organizing systems to date!

The front deck includes those two tackle organizing storages, dual rod lockers, net scabbard, two additional storages, a helmet box for two helmets in the deck step, and a 34 quart cooler with sandwich tray.

Seating is cockpit style in a deep body and includes a cubby to the fire extinguisher and a throw pocket under the drivers and passengers bucket style seats. There is also a pivoting center seat for a third passenger.

Anglers will find three (3) rod storage compartments, which includes an added left hand 8' passenger rod storage box located in the rear deck. This offers a 6 1/2' rear casting deck width, you will also find a passenger storage compartment, spare prop and oil storage and a very unique spare trolling motor compartment behind the seats, which also serves for life vest storage. Options on most other top of the line rigs will probably be found as "standards" on this Big Cat. Standards such as, a security system, lighted storages areas, dual rear view mirrors on console, Sony iPod USB Stereo, fully deployable telescoping hinges boarding ladder, built in LED recessed bow light, telescoping LED stern Anchor Light (No more plugging in light posts), and a four (4) bank charger all standard. As for the Bass Cat Jaguar trailer, a Grab Post and step at the tongue, dual axle brakes on a tandem axle trailer ... all standard.

Everything is "over the top" on the new Bass Cat Jaguar.

Puma[®] FTD

The Bass Cat Puma FTD might just be the "baddest" fishing rig in the line up? We simply took the front half of the Puma and married it to the back half of the Cougar FTD; the best characteristics of both boats ... resulting in one awesome bass boat. You have a 20'4" hull with a 94" beam, it's rock solid and will cut the waters surface with ease. This new hull is found on all four 20 footers ... both Pumas and Cougars. Our hull is quicker, more stable, and provides an even softer ride. One ride will insure this is just plain fact, not a claim.

The deck layout provides storage all the way from the bow to the console with seven (7) compartments, including a place for your net and measuring board. Plus, two more compartments under the seats, and two more on the back deck. A new modular

console provides space for a built-in LCR, along with a host of monitoring gauges. Enjoy cool lighted handrails and pop up mooring cleats at your fingertips for securing this baby at the dock.

Innovations? What about a built-in bow navigational light? It's not only cool, but, very practical. Seat pedestal storage, a stainless screw in drain plug and Southco Latches make life on the water just a little better.

Our "all fiberglass" structures carry a Transferable Limited Lifetime Structural Warranty.

Puma

The Bass Cat Puma and its brother the Puma FTD just might be the best boats in any line up!

The "all fiberglass" compression manufacturing, utilizes our trademark vacuum process, which is years ahead of other bass boats construction methods.

The 20'4" hull with its 94" beam is rock solid. This hull is very stable, yet agile even in the roughest waters.

The deck layout provides storage from the bow to the console with six (6) compartments. There's even a place for your net and measuring board, close within reach. It's trendy modular consoles designed to provide space for a built-in LCR. Plus, conversion to a dual console (DC) is a pretty simple process. This console also sports a custom designed Italian steering wheel with six (6) sides, and a Bass Cat

mark in the center cap. Beside the console you will find two cool items. First, lighted handrails, which are, too cool, and added pop up mooring cleats at your fingertips for securing your ride at the dock.

Compare the standard features, performance, handling, rough water ride, quality craftsmanship, customer satisfaction, and Bass Cats reputation to any bass boat on the market ... bar none.

This Cat always causes a feeding frenzy in the parking lot ... and while stopped at any gas station from home to lake.

Our "all fiberglass" structures carry a Transferable Limited Lifetime Structural Warranty.

Cougar

Bass Cat's new 2010 Cougar FTD introduces a euro hull design encompassing over 38 years of bass boat design innovations.

This top cap design includes a unique livewell design in the new Cougar FTD. These triangle shaped livewells offer more space for your catch and added 10 gallons to the capacity. The front deck even has a place for your buoy markers, every tournament fisherman needs these.

The new generation hull provides a solid and more softer ride, with performance handling in this 20' model. The console offers user friendly touch pads and other digital technologies as state of the art instrumentation for monitoring the pulse of

the outboard, or livewell water conditions assuring the day's catch is released safely.

The deck layout provides storage from the bow to the console within six (6) compartments ... two are under one lid in the front center. Vast additional storage is also found under the euro style bucket seats with an ice chest located in the center of the seat arrangement.

A compliment of standard features are found in this Cougar FTD. No plastic dashes, or fancy cover ups ... just an all out fishing machine from bow to stern.

All Bass Cat Boats are made with All Fiberglass hull construction techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty.

Cougar Advantage

The Cougar Advantage Elite features a 20'4" hull that offers stable handling, plus a rock solid fishing platform.

A perfect choice for the tournament fisherman who demands the performance and storage of a big boat without all of the "bells and whistles."

Cougar Advantage is easier on your billfold while still offering "top of the line" Bass Cat "all fiberglass" quality construction throughout.

At the bow, fishermen will appreciate Bass Cat's patented recessed basin which holds the trolling motor foot control. It's flush with the deck, out of the way, puts fishermen 10-12" closer to

the action, as it helps relieve back and foot strain associated with a day's fishing. This recessed area also

provides space for a digital graph. Up front, two full length rod boxes will keep all rods and reels organized and out of the way. Plus, convenient partner rod storage is accomplished with a built-in rod holder beside the passenger seat. Both front, and rear storage compartments with additional under the seat storage provide all the room for tackle and other accessories any angler could ever need.

Two ice chests, one at the front and one at the rear between the seats keep lunch and drinks easily accessible to all.

Optional Recess Cover

Pantera II

Bass Cat reintroduced the Pantera II in 2007 as part of its 35th anniversary celebration. Bass Cat has built more Pantera IIs than any other model in the company's history.

This Pantera II measures 19' 1" in length with a 93" beam that carries a 200-hp rating. The floor plan features dual rod lockers and huge dual storage boxes on the front deck, and a divided cooler. The rear width of the front deck is just short of 60 inches. Two rear deck storage areas are very large, and straddle dual livewells. A neat step to the rear deck matches the top cap of the boat and is built to house your throw cushion plus a retractable grab strap for the passenger.

Unlike its ancestors, this new Pantera II is built with our innovative "all fiberglass" compression manufacturing techniques. This method of construction utilizes our trademarked vacuum process which is years ahead of other bass boat construction processes and offers our Transferable

Limited Lifetime Structural Warranty.

This Cat's already started quite a stir as it continues the Pantera II tradition in our history books.

Pantera Classic

We listen to fishermen. This re-designed Pantera Classic hopefully will fit those anglers who find the 19' bass boat fits their desires by providing exceptional "big boat" performance and handling in all types of water conditions. The "all fiberglass" vacuum compressed hull, stringers, and transom offer a superior rough water ride and long term durability. A Lifetime Transferable Structural Warranty lets this Bass Cat Owner know he has a very high quality crafted product!

Dual rod boxes, a mammoth front deck storage box, and two (2) large storage boxes on the rear deck provide storage for both the owner and his partner. A center line trolling motor mount with recessed trolling motor

pedal basin, plus a new modular console that allows for an optional built-in digital graph/GPS, aerated and recirculating livewells, 33 gal. fuel tank, and aluminum lids are just a few of the standard features on this new Classic.

A modular console (DC) Classic is also available for those who want to offer added protection for a partner, or, just prefer the looks of dual consoles.

FTD

Marty Stone

When Marty Stone and Rick Pierce put similar thoughts on a table napkin a new breed of Cat appeared. Targeting younger tournament anglers as well as seasoned anglers who don't face big water on a regular schedule, this boat fits a strong emerging market.

The front deck floor plan features dual rod lockers and huge dual storage boxes. A unique recessed pocket on the deck helps hold rods and reels in place, plus you'll find a divided cooler. Two rear deck storage areas are very large, and straddle dual livewells. A neat step makes easy access to the rear deck. This step matches the top cap of the boat and is built to house your throw cushion plus a retractable grab strap for the passenger.

A hot new modular console provides easy visibility of all gauges and accommodates a mid size LCR.

This new Sabre FTD is built with our innovative "all fiberglass" compression manufacturing techniques. This method of construction utilizes our trademarked vacuum process which is years ahead of other bass boat construction processes and offers our Transferable Limited Lifetime Structural Warranty.

The Sabre FTD comes in all three engine options.

This new Cat's already started quite a stir, and we feel it will make waves among serious tournament anglers.

Sabre

This Sabre is truly fun to drive, a quick throttle response will keep you in the fast lane right from the instantaneous "hole shot." Plus, this Sabre handles like a dream ... you know you are always in control, and it will take a turn smoothly, no hopping or skipping.

Tournament fishermen will appreciate the added front and rear deck space as well as the recessed trolling motor basin to help relieve back, knee and ankle stress. Fishermen will also be impressed with the list of standard features, from a new aerodynamic modular console which can hold an optional built-in digital graph/GPS, dual steering,

hydraulic lid openers, two (2) rear storage compartments, and a dual aerated livewell with removable divider to name a few. When you are comparing the Sabre to other 18' boats the impressive list of standard features and uncompromising Bass Cat quality throughout will prove this to be one of the best "values" on the market.

A very important point to remember is all Bass Cat Boats are made with "All Fiberglass Construction" techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty ... a real "biggie."

BASS CAT CUSTOM TRAILERS

Most people take the trailer sitting under that shiny new boat for granted ... but we take our trailers very seriously. Unlike many manufacturers, Bass Cat builds Bass Cat Trailers ... one at a time, to fit the specific hull design of each model boat. Every member and cross support is jigged, fitted and welded in U.S. Steel to exact tolerances ... there is zero adjustment on a Bass Cat Trailer. Axles are also jigged, and welded in a pattern weld to assure minimal tire wear from caster to camber, and supported with a multi leaf trailer spring. Each trailer is painted and carpeted to perfectly coordinate with the boat. Innovations as the newly designed Grab Bar and Step System, and the boating industry's finest Swing

Away Tongue.

Also note our New **BCB** Torx Rubber Axle ... a true "Soft Ride Suspension." Our innovative Optional GatorHyde™ coating provides a heavy rubberized protective clear coating to repel harmful impacts from rocks and other road debris.

At Bass Cat, your safety and the investment you have made in your boat are not taken for granted ... we demand the highest quality materials and hand craftsmanship, for your safety and security ... it's a Bass Cat family tradition.

- NOTE: Optional Dual Axle Brakes are recommended on all Tandem Axle Trailers.

Boat Buckle Retractable Tie Downs

Optional Grab Bar & Step System makes entry from the trailer to boat safe and simple. Also available as an after market "add-on" for older trailers.

OWNER'S INVITATIONAL

We call this a "family reunion" because it's one time each year that all Bass Cat owners (our family) are invited to Mountain Home, Arkansas for some good ole Ozark hospitality. Our only goal is to show our sincere appreciation to our family of Bass Cat Boat owners.

The two day Thursday & Friday Invitational begins with registration on Wednesday evening. Thursday morning is truly a sight to behold, as the sun peeks over the mountains, your heart starts pounding a little faster as the daylight reveals a bay with little lights dancing all around on the water. It's not often that you see such a spectacle as 600-700 Bass Cat Boats staged for an early morning tournament takeoff. It is an overwhelming sight to behold. The Bass Cat Owner's Invitational is a true family

affair. We provide an atmosphere for family participation.

Friday morning brings the final day of competition and some serious thinking, and wondering if any of those fish stories heard the night before had any truth to them. The afternoon's final day weigh in provides a little computer printout that makes several folks really appreciate this "Family Reunion."

We promise you one thing, on the way home you will be looking forward to the next year's Bass Cat Owner's Invitational.

WARRANTY - EXTENDED LIFETIME TRANSFERABLE STRUCTURAL WARRANTY

Bass Cat Boats warrants each new fiberglass boat to its original noncommercial purchaser for a two (2) year period. Warranted to be free from defects in the workmanship and materials, under normal use and conditions. Certain items are under coverage by the manufacturer(s), separate of Bass Cat manufactured goods. Bass Cat makes no claim to represent, circumvent or exercise the independent manufacturer(s) warranties.

This warranty does not apply to (1) Any boat which shall have been repaired or altered in any way so as to affect its use and operation; (2) gelcoat cracking, crazing, blistering, fading, discoloring or any similar situation; (3) windshield breakage; (4) any boat which has been subject to misuse, alteration, neglect, accident, used for racing purposes or operated in a negligent manner at the opinion of Bass Cat Boats; (5) upholstery damage; (6) any boat utilizing over an 8" jackplate (2009) or altering of standard equipment offered specifically by Bass Cat; (7) any boat which has been overpowered, according to the maximum recommended engine horsepower specified for that particular model, on the capacity plate. (8) any part or component expired within a reasonable time of its expected operational period.

To validate the warranty, the boat registration card must be returned to Bass Cat Boats within fifteen (15) days of the original purchase. Under Federal law all boat manufacturers are required to notify first purchasers, in the event that any defect is discovered "which creates a substantial risk of personal injury to the public," or any noncompliance with Federal regulations by the manufacturer. Failure by any first purchaser to fill out and return the warranty registration card, or complete transfer, may make it impossible for Bass Cat Boats to give direct notice to such purchaser and does not execute warranty.

This warranty is expressly in lieu of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, and in lieu of all other obligations or liabilities on the part of Bass Cat Boats. Bass Cat Boats expressly denies, on the part of any person to incur or assume for it, any other liability in connection with the sale or use of its boats and trailers. Implied warranties, if any, given by valid law, shall be limited to the duration of this written warranty.

The obligation of Bass Cat Boats, under this warranty, shall be limited to the repair or replacement of any part which is judged defective by Bass Cat. During the term of this warranty repairs will be made free of charge, at any authorized Bass Cat Service Center under guidelines accepted by Bass Cat, or by Bass Cat itself at its discretion and approval. Transportation costs to the factory are the responsibility of the purchaser. All warranty repairs must be approved by Bass Cat personnel, whose decisions are final. Removal of components which are termed rigging parts will not be the responsibility of Bass Cat Boats. Bass Cat Boats will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income, or any other special or consequential damages of any kind or nature.

Bass Cat Boats makes every effort to ensure that the brochure information herein is correct and accurate at the time of production. Continual product refinement and design changes may result in revisions to current products that may not be shown in this brochure. We reserve the right to make changes in models, specifications, colors, and features at any time. Please see your authorized Bass Cat Dealer for additional information, options and specific warranty information.

Bass Cat Boats accepts no liability for those components which are or may be marketed to the retail consumer and selected as standard or optional equipment on a Bass Cat Boat. Examples of those components may be and are not limited to, outboard engines, propellers, fish finding equipment, instruments, trolling motors, battery chargers, engine controls and ignition switches, batteries, radio/stereos, bow guards and covers.

An extended Lifetime Warranty also applies. These are transferable warranties through an authorized Bass Cat dealer or through Bass Cat Boats. There is a charge for transferring the warranty and it may be transferred only under the guidelines issued at that time period. Transfer is only complete upon receipt by Bass Cat, qualification, fees and transfer.

Extended Lifetime warranty to the original consumer is transferable on used boats which are sold through an authorized Bass Cat dealership and/or pass an applicable qualifications check list for that particular model. There is a charge for verification and transfer. Lifetime warranty covers manufacturers defects in the structure in its original state. Any modifications, additions or changes to the boat from its original manufactured condition may be judged invalid for transfer. Under those conditions only the fees for transfer will be redeemed. Qualification fees will be deemed as a service performed.

Assessments of the Lifetime Warranty will be executed base prorating dependent on the age and condition of the boat, using NADA, ABOS, or similar accepted value booklets available at that time.

Bass Cat warrants all Bass Cat trailers for a period of two (2) years, for noncommercial use under guidelines stated in this limited warranty. No exceptions or other offers apply. Tires and certain other items may be subject to their own independent warranty restrictions and available only through those company(s) dealers, agents or representatives. Transfer is applicable under transfer guidelines in this written warranty.

The information in this literature is based upon the latest product information available at the time of publication approval. Bass Cat Boats reserves the right to make changes anytime, without notice, in colors, equipment, specifications, materials, hulls, prices, and discontinuation of models. When changes are made, we reserve the right to do so without incurring the obligations to equip, or modify, existing models built prior to the date of such changes.
