

# YAR-CRAFT BOATS

The 2024 year is upon us and we enter 55 years of Yar-Craft. New for 2024 is the 210 TFX. While we don't know where this will stand in the industry's eye, it has undoubtedly carried on the revolutionary aspects and innovations that were brought out in the 219 series. As we are continuing to expand on the innovative floor plans we started with the 2095 BTX and the 219 TFX. It also carries that same 209 hull template we revised to improve that rough water ride, which is unparalleled in the multi-species market.

Looking back, our 219 TFX was "the Most Innovative Freshwater Fiberglass Fishing Boat" for 2020, and our Bass Cat Puma STS received that honor in 2022. Those were back-to-back innovation awards, as there were no 2021 awards during Covid. The 2095 was a Boat and Motor Dealer highlighted "Top Product" before that. And we are committed to Yar-Craft continuing that innovative development well into the future. While we have many years behind us now with Yar-Craft, that path laid

a framework for new thoughts, products and developments that are a foundation to build on going forward. The foundation we mention is that of our injection in this iconic heritage.

It started with Jack Dallman's dream in 1969 and continues through all of us today. We still get images of those 1970's and 1980's Yar-Craft's which are one owners. Often those have been in their family for decades. As with anything times change and we move on.

Then the world changed and we stepped back for several years, as now we enter more normal times. Back at work, open offices and all as financing and interest are back to slightly below normal levels. Unfortunately, so is the time we all spend outside. It's easy to forget that slower pace and tight-knit circle we enjoyed during the tail end of that quarantine era. We should continue and spend time outdoors together. When movies, trips and vacations ended, we found time on the water to enjoy ourselves. That tighter bond should not only be a memory.

No doubt in 55 years Yar-Craft has seen an ever so present state of change. Change is something we are not familiar with. Here at Yar-Craft our goal is to continue the service and consumer experience we have been known for. One that is well documented and has a standard of excellence beyond the marine business. As much as our quality, we hope it is a main reason you desire to be in our brand. Our service satisfaction and consumer loyalty scores outpace the marks of most any company. This team is focused on retaining that impeccable standard of excellence and carrying this through to our dealers.

We've proven our commitment. That extends beyond to a commitment of continued development, as we strive to improve. A commitment to quality in construction and components, as for us there is no status quo. The drive to excellence will always secure this brand and support your choice. "Building Boats" based on a commitment to a higher power and "Making Life Better". Better for you, our dealers, our staff and better for the world overall.

Thank you for considering our product as your family's multi-species rig. We hope you find it suits you well, and our goal is to exceed all of your boating needs.

God Bless and Good Fishin',

Rick

**WAVE-CRUSHING ENTRY**

An aggressive entry and strategically tapered deadrise allows you to literally split waves, maintaining position to contact the next set correctly. Spray is turned down to stay comfortable and dry. Stability built into the hull helps everyone onboard without sacrificing rough water performance.

**RUNNING SURFACE**

Recent modifications have enhanced maneuverability and control required to excel in all conditions. Superior agility and strength helps power through the roughest reservoir chop or finesse the giant swells of the Great Lakes. We're perfecting a hull that fears no wave, and can flat out run when the conditions allow.

**FISHING PLATFORM**

Boat response and behavior while fishing is just as important as our famous ride. The ability to maintain position in adverse conditions is paramount for a successful day. Input from serious fishermen, including several from the R&D department, continues to evolve the lineup.

**FULL-WIDTH COCKPIT LAYOUT**

The trollers appreciate the full-width layout with re-pitched decks providing comfort and stability in adverse conditions. No shortage of storage across the back decks to keep an efficient workflow from anywhere in the boat. Quick access to tools and nets allow a clutter-free environment.

10 YEAR TRANSFERABLE WARRANTY  
HULL • TRANSOM • FLOOR • STRINGERS

**VACUUM PROCESS HULL ASSEMBLY**

The 219 TFX, 210 TFX and 2095 BTX use custom-matched stringers, floors and transoms which are pulled together using massive vacuum pumps. This creates our famous one-piece hull design that you can truly feel as you power through a chop.

**QUALITY GEL COAT APPLICATION**

Strategic steps utilizing high atomization and a wet flake application. We take our time during this process to ensure consistency and detail. This gives our boats the look, feel and consistency that is unmatched in our industry.

**PREMIUM VINYL ESTER RESIN**

We incorporate a premium Vinyl Ester Resin in the barrier coat underneath our high quality gel coat. This adds rigidity to the hull and prevents hydrolysis which is the number one cause of blistering and cracking.

**FULL-WIDTH TRANSOM STRENGTH**

The 219 TFX, 210 TFX and 2095 BTX use vacuum molded transoms that extends the entire width of the boat. No fillers are used as we set into wet fiberglass to secure them to the hull.

# 219 TFX

Length ..... 21 ft 6 in  
 Beam ..... 97 in  
 Hull Weight ..... \*2200 lbs  
 Fuel Capacity ..... 60 gal  
 H.P. Range ..... 250-400

\*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length with Tongue Swing  
24' 7"

# BIG WATER KING

1 Raised, low-profile front deck with recessed foot pedal. All-fiberglass lids featuring custom decking and stainless latches.

2 4-tier rod storage with TM battery and charger access below. Accommodates rods up to 9' in length.

3 Rigid, all-fiberglass console design with integrated net and ruler storage. Large storages underneath both consoles.

4 Full-width rear fishing cockpit ideally suited for trolling with multiple guests.

There's a reason the 219 TFX was awarded the \*Most Innovative Fiberglass Fishing Boat in its debut. We put our best efforts into our most popular model from the inside out. We built this rig fresh from the ground up on our solid 219 hull platform. The internal vacuum assemblies are all new and transfer energy to experience wave-crushing power. At the stern, the full-width fiberglass transom gives enough strength to handle up to 400 HP outboards. A re-pitched rear deck and cockpit reducing fatigue,

increasing both drainage and comfort. Inset consoles extend the cockpit, offering large storage areas and there are even two locations for 12 volt, 19qt Engel coolers. The layout has four (4) layers of rod locker organization extending up to 9'. Added to that are cushioned decks with foam flooring. This boat has already earned it's reputation in big water and today, it's even better than ever. Take advantage of each day in almost any weather with the 219 TFX. It is a Wave Crusher!

\*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

Storage Length with Tongue Swing  
24.7"

# A NEW TRIED AND TRUE

Our 210 TFX has stepped up to match its award-winning, 21.5' brother in form and function, with a slightly smaller footprint. The iconic hull design picks through choppy seas like a knife while offering all the control you need to finesse your next big water trophy. Fit with all-new internal assemblies including a full-width, vacuum-molded transom to handle a complete accessory suite, keeping you versatile no matter where you travel across the walleye belt. New top deck updates

abound, sure to improve comfort, storage and efficiency. A convenient passenger console net scabbard/ruler holder helps keep the deck clutter free with twin tool holders molded into the rear deck. All main compartments are generously lit and cushioned with Reflex box mats. Enjoy more room on both decks and the cockpit over it's predecessor. The 210 TFX is primed to hit a sweet spot for many anglers looking to maximize the potential from the 20'foot category.

1 All-fiberglass lids with full Reflex® deck. Finished boxes, cushioned with additional Reflex® liners.

2 Three-tier lighted rod storage with easy access to a large trolling motor battery/charger access panel.

3 Updated all-fiberglass dash and 6X wheel with extra room for flush mounted graphs and accessories.

4 Large rear deck with lighted storage flanks a high volume recirculating livewell. Integrated tool/cup holders nearby.

PREMIUM

# 2095 BTX

# TOTAL CONTROL

\*NOTE: Dry weight without trolling motor, control boxes, graphs, hydraulic plate and options.

This is a special boat for a specialty market. It is one of the most versatile layouts in the multi-species arena, offering pinpoint control and maneuverability in both forward and reverse. The 2095 BTX is known for unparalleled drifting and spot-holding characteristics seasoned backtrollers appreciate. Tiller anglers demand their boats act as an extension of themselves to effortlessly deliver their lure presentations under any conditions. The precise turns

and tracking of the 2095 provide that experience. A large front deck places you on point with the recessed pedal tray and an adjacent day box for convenience. The seamless layout flows into the rear command center, with access to the built-in tool/ruler/net scabbard. Couple that with the signature Yar-Craft ride and you're ready for any adventure.

1 Livewell, baitwell and dry storage surround the electronics/control center. Easy access from the driver seat.

2 Huge LED lighted storage boxes with additional 8' rod storage on the front deck of the 2095 BTX.

3 Secondary rod box capable of holding multiple rods over 9' in length.

4 Convenient net scabbard with built-in ruler, tool and cup holder.

## SIMPLICITY WITH SIZE

A 186 TFX ensures stability, room and comfort for all passengers. The cockpit is expanded above, and beyond, all other models. Allowing freedom for the entire family to move about and enjoy their day on the water. Multiple rod storage areas exist, allowing for a well-organized vessel. All main storage compartments are carpeted to protect your

gear and dampen sound. This boat is just as comfortable running a large open water spread or sneaking into the shallows for an evening of fun. For those desiring a shorter footprint, you won't be sacrificing big water confidence. You can rely on the 186 TFX for a complete family or competitive platform.

1 Wide front deck with carpeted lids and storage. Extremely stable fishing platform.

2 All-fiberglass dash with under-console storage with removable, lockable doors.

3 Two-tier rod storage (7'6" max) with easy access to trolling motor batteries below.

4 Large recirculating livewell with integrated bait bucket holder and custom stainless latches.

## 210 TFX SPECIAL PACKAGE

## YAR-CRAFT 10 YEAR TRANSFERABLE WARRANTY

Yar-Craft Boats extends to the first, original purchaser of a Yar-Craft boat the following warranties provided the boat is a 2012 or newer model sold through an authorized Yar-Craft dealer and said boat has been properly registered with Yar-Craft Boat Company. Yar-Craft warrants that it will repair or replace defects in materials or workmanship that occur within the applicable warranty periods, subject to the "What this warranty does not cover" section. The applicable warranty period runs from the date of delivery to the first original purchaser provided that the boat is delivered within twenty four (24) months from the date of manufacture. All warranties run concurrently.

Defects in structural parts limited to the laminated hull, stringers and transom: Warranty period runs from the duration of the first original (1st) purchaser's period of ownership, or ten years. The transferred warranty period to a 2nd purchaser runs ten (10) years from the original delivery date, regardless of when the warranty is transferred.

Defects in the following factory installed parts, and components will have a warranty period of two (2) years from the first original purchase date, unless otherwise covered by their manufacturer. This warranty may be transferred.

1. Carpet fading (except from spills or leaks).
2. Steering helm, cylinder, hoses, and cables.
3. Boat electrical system, including switches.
4. Seats and pedestals.
5. Fuel tanks.
6. Deck hardware such as locks, cleats, and fasteners.
7. Aeration pumps, hoses, and valves.
8. Bilge pumps, hoses, and valves.
9. Yar-Craft Trailers from EZ Loader carry their own warranty (See EZ Loader Trailer Warranty).

Remaining factory installed parts and components: Warranty period runs one (1) year from the date of delivery to the original retail purchaser. Defects in the exterior cosmetic gelcoat finish (cracking, crazing or fading): Warranty period runs one (1) year from the date of delivery to the original retail purchaser.

Repairs will only be authorized after Yar-Craft Boats is satisfied that there is a defect in material or workmanship.

Coverage remaining under the Warranty period may be transferred by an authorized Yar-Craft dealer, or Yar-Craft, to a 2nd purchaser for a \$200 fee. The transfer must occur within five (5) years of the original retail sale. The transfer fee must be paid within 30 days of purchase of the used boat to transfer the warranty. Proof of purchase date required. The purchaser's sole and exclusive remedy is the repair or replacement at Yar-Craft Boats sole option of parts and components covered by this warranty. This Yar-Craft boat, including any alleged defective part, must be returned to an authorized Yar-Craft dealer within the applicable warranty period to obtain warranty service. The Yar-Craft dealer will carry out the warranty procedures on the owner's behalf. All warranty work will be performed at an authorized dealer, at the Yar-Craft factory, or at another repair facility that Yar-Craft Boats selects. The purchaser is responsible for expenses associated with transporting the boat to and from the repair facility.

An action for breach of warranty shall be barred unless it is commenced within two (2) years from the date the cause of action accrues. An action for breach of any duty or obligation to repair or replace shall be barred unless it is commenced within one (1) year from the date the cause of action accrues, regardless of any time remaining in the warranty period.

**This warranty is valid in the United States and does not apply to:**

1. Engines, out drive, controls, gauges, fuel senders, propellers, batteries, and/or other equipment or accessories that are not manufactured by Yar-Craft Boats, whether or not they are warranted by other manufacturers (except as noted).
2. External finishes gel coat, stress fractures, decals, rubber, or plastic composites.
3. Carpet and upholstery wear, fraying, or tearing.
4. A boat, or its components, that have been altered or modified, as to adversely affect its operation, performance, or durability.
5. Any damage resulting from an impact with another object.
6. Windshield breakage or leakage around windshield(s), hatches, or other designed openings.
7. Estimated characteristics such as weight, speed, or fuel consumption.
8. A boat, which has been overpowered according to the maximum recommended engine horsepower specified, on the capacity plate, which has been altered by the use of a transom bracket, or jack plate in excess of eight (8) inches, or six (6) bolts.
9. Any boat which has been misused, used in a negligent manner, used for racing, in rental or other commercial uses, used without normal maintenance, operated contrary to any normal intended use as recreations for Yar-Craft Boats, involved in an accident, operated in violation of any Federal, State, Coast Guard, or other governmental agency laws, rules, and regulations.
10. Loss of time, inconvenience, boat payments, retail charges, travel expense, loss of use, haul out, launch, towing, and storage charges, loss or damage to personal property, or other remedies not specifically allowed and are consumer bearance.
11. Dealer preparation, cleaning, final adjustments, and alignments done in preparing the boat for delivery.
12. Damage caused to transom because of loose or not tightened motor bolts.

Remedy under this warranty is expressly limited to repair or replacement or defects in materials or workmanship, and does not include incidental or consequential damages, which are specifically disclaimed. There are no warranties which extend beyond the description on the face hereof. This document contains the entire warranty given by Yar-Craft Boats, and does not authorize any person or persona, including Yar-Craft dealers, to change the terms of this expressed limited warranty. Yar-Craft reserves the right to change or improve the design or manufacture of Yar-Craft Boats without obligation to modify any boat previously manufactured, and at any time.

Dealers: Before a warranty repair is initiated, an authorization form needs to be completed by the dealer, and faxed or mailed to Yar-Craft for signature, authorization, and review. No warranties will be authorized or approved via e-mail or phone. Faxed or mailed claims and authorizations are the only acceptable procedures. Parts will be provided by Yar-Craft with return policies noted on the triplicate form. Warranty department at Yar-Craft Boats will authorize the repair and then fax or mail authorization back to the dealer. Photos and written explanations for warranty work may be required. These should be submitted along with the warranty claim form to Yar-Craft Boats for pre-approval.

When the warranty repair is completed, a copy of the authorization form and a copy of the parts invoice should be mailed or faxed to Yar-Craft for proper dealer credit. A credit for the total claim amount will be posted to dealer's account once the copy of the authorized claim form and parts invoice are returned and reviewed.

Yar-Craft Boats will strive to accommodate all dealers in their warranty endeavors; however, we reserve the right to adjust labor hours if in our opinion claimed labor appears excessive. The dealer will be advised of any adjustments.
